

***Section 1. Gastrointestinal Tract***

- 1. Abdominal Radiography***
- 2. GI Fluoroscopy***
- 3. Gastric Wall Thickening/Masses***
- 4. Hollow Viscus Perforation***
- 5. Small Bowel Obstruction***
- 6. Bowel Wall Thickening***
- 7. Imaging of the Postoperative Bowel***
- 8. Mesenteric Ischemia***
- 9. Colorectal Cancer and Screening***
- 10. RUQ Pain***
- 11. RLQ Pain***
- 12. Pancreatitis***
- 13. Solid Pancreatic Masses***
- 14. Cystic Pancreatic Lesions***

***Section 2. Hepatobiliary***

- 15. Chronic Liver Disease***
- 16. Imaging of the Cirrhotic Liver***
- 17. Benign Focal Liver Lesions***
- 18. Cholecystitis***
- 19. Jaundice***

***Section 3. Lymphatic System***

- 20. Splenomegaly/Splenic Lesions***
- 21. Lymphadenopathy***

***Section 4. Genitourinary***

***22. Urolithiasis***

***23. Cystic Renal Masses***

***24. Solid Renal Lesions***

***25. Diffuse Renal Parenchymal Disorders***

***26. Urinary Tract Obstruction***

***27. Urothelial Lesions***

***28. Adrenal Gland Enlargement and Nodules***

***Section 5. Reproductive System***

***29. Prostate Imaging***

***30. Testicular Lesions***

***31. Endometrial/Junctional Zone Thickening***

***32. Focal Uterine Lesions***

***33. Cystic Adnexal Lesions***

***34. Solid Adnexal Lesions***

***35. Mullerian Abnormalities***

***36. Pelvic Floor Disease***

***Section 6. Miscellaneous***

***37. Postoperative Imaging***

***38. Abdominal/Pelvic Trauma***

***39. Pitfalls***
