

## ***SECTION 1 Basic Principles -***

- 1. Physiology and Pathophysiology of Musculoskeletal Tissues***
- 2. Basic Concepts in Biomechanics***
- 3. Basic Science of Graft Tissue in Sports Medicine***
- 4. Basic Science of Implants in Sports Medicine***
- 5. Orthobiologics : Clinical Application of Platelet-Rich Plasma and Stem Cell Therapy***
- 6. Exercise Physiology***
- 7. Imaging Overview***
- 8. Basic Arthroscopic Principles***
- 9. Overview of Sport-Specific Injuries***
- 10. Commonly Encountered Fractures in Sports Medicine***

## ***SECTION 2 Medical***

- 11. Team Medical Coverage***
- 12. Comprehensive Cardiovascular Care and Evaluation of the Elite Athlete***
- 13. Exercise-Induced Bronchospasm***
- 14. Deep Venous Thrombosis and Pulmonary Embolism***
- 15. Gastrointestinal Medicine in the Athlete***
- 16. Hematologic Medicine in the Athlete***
- 17. Infectious Disease and Sports***
- 18. The Athlete with Diabetes***
- 19. Renal Medicine and Genitourinary Trauma in the Athlete***
- 20. Sports and Epilepsy***
- 21. Environmental Illness***
- 22. Dermatologic Conditions***
- 23. Facial, Eye, Nasal, and Dental Injuries***
- 24. Psychological Adjustment to Athletic Injury***
- 25. Sports Nutrition***
- 26. Doping and Ergogenic Aids***
- 27. The Female Athlete***
- 28. The Para-athlete***
- 29. Anesthesia and Perioperative Medicine***

### ***SECTION 3 Rehabilitation and Injury Prevention***

***30. The Athletic Trainer and the Sports Medicine Team***

***31. Principles of Rehabilitation: Overview of Rehabilitation Protocols***

***32. Modalities and Manual techniques in Sports Medicine Rehabilitation***

***33. Basics of Taping, Bracing and Orthotics***

***34. Principles of Injury Prevention***

***35. Return to Activity and Sport after Injury***

### ***SECTION 4 Shoulder***

***36. Shoulder Anatomy and Biomechanics***

***37. Shoulder Diagnosis and Decision Making***

***38. Glenohumeral Joint Imaging***

***39. Shoulder Arthroscopy***

***40. Anterior Shoulder Instability***

***41. Posterior Shoulder Instability***

***42. Multidirectional Instability of the Shoulder***

***43. Revision Shoulder Instability***

***44. SLAP Tears***

***45. The Thrower's Shoulder***

***46. Proximal Biceps Tendon Pathology***

***47. Rotator Cuff and Impingement Lesions***

***48. Subscapularis Injury***

***49. Revision Rotator Cuff Tears***

***50. Other Muscle Injuries***

***51. Stiff Shoulder***

***52. Glenohumeral Arthritis in the Athlete***

***53. Scapulothoracic Disorders***

***54. Nerve Entrapment***

***55. Vascular Problems and Thoracic Outlet Syndrome***

***56. Injury to the Acromioclavicular and Sternoclavicular Joints***

### ***SECTION 5 Elbow, Wrist, and Hand***

- 57. Elbow Anatomy and Biomechanics*
- 58. Elbow Diagnosis and Decision Making*
- 59. Elbow Imaging*
- 60. Elbow Arthroscopy*
- 61. Elbow Tendinopathies and Bursitis*
- 62. Distal Biceps and Triceps Tendon Ruptures*
- 63. Entrapment Neuropathies of the Arm, Elbow, and Forearm*
- 64. Elbow Throwing Injuries*
- 65. Stiff elbow*
- 66. Anatomy and Biomechanics of the Hand and Wrist*
- 67. Hand and Wrist Diagnosis and Decision Making*
- 68. Imaging of the Wrist and Hand*
- 69. Wrist Arthroscopy*
- 70. Carpal Injuries*
- 71. Wrist tendinopathies*
- 72. Disorders of the distal radioulnar joint*
- 73. Tendon injuries in the hand*
- 74. Digit fractures and dislocations*
- 75. Neuropathies of the Wrist and Hand*

#### *SECTION 6 Pelvis, Hip, and Thigh*

- 76. Hip Anatomy and Biomechanics*
- 77. Hip Diagnosis and Decision Making*
- 78. Hip Imaging*
- 79. Hip Arthroscopy*
- 80. Femoroacetabular Impingement in Athletes*
- 81. Hip Instability and Dysplasia*
- 82. Iliopsoas Pathology*
- 83. Peritrochanteric Disorders*
- 84. Athletic Pubalgia and Adductor Pathology*
- 85. Posterior Hip Pain*
- 86. Hamstring Injuries*
- 87. Contusions of the Hip and Thigh*

***88. Hip Arthritis in the Athlete***

***SECTION 7 Knee***

***89. Knee Anatomy and Biomechanics of the Knee***

***90. Knee Diagnosis and Decision Making***

***91. Imaging of the Knee***

***92. Basics of Knee Arthroscopy***

***93. Arthroscopic Synovectomy of the Knee***

***94. Meniscal Injuries, Meniscectomy and Repair***

***95. Meniscal Transplantation***

***96. Articular Cartilage Injuries & Cell-Based Repair***

***97. Frontiers in Articular Cartilage Treatment***

***98. Anterior Cruciate Ligament Injuries***

***99. Revision Anterior Cruciate Ligament Injuries***

***100. Posterior Cruciate Ligament Injuries***

***101. Medial Collateral Ligament and Posterior Medial Corner Injuries***

***102. Lateral and Posterolateral Corner Injuries of the Knee***

***103. Multiligament Knee Injuries***

***104. Knee Arthritis***

***105. Patellar Instability***

***106. Patellofemoral Pain***

***107. Extensor Mechanism Injuries of the Knee***

***108. Loss of Knee Motion***

***109. Vascular Problems of the Knee***

***SECTION 8 Leg, Ankle, and Foot***

***110. Foot and Ankle Biomechanics***

***111. Leg, Ankle, and Foot Diagnosis and Decision Making***

***112. Imaging of the Foot and Ankle***

***113. Leg Pain and Exertional Compartment Syndromes***

***114. Peripheral Nerve Entrapment Around the Foot and Ankle***

***115. Ankle Arthroscopy***

***116. Sports Shoes and Orthoses***

- 117. Ligamentous Injuries of the Foot and Ankle*
- 118. Tendon Injuries of the Foot and Ankle*
- 119. Articular Cartilage Injuries*
- 120. Heel Pain and Plantar Fasciitis : Hindfoot Conditions*
- 121. Forefoot Problems in Sport*

#### ***SECTION 9 Spine and Head***

- 122. Head and Spine Anatomy and Biomechanics*
- 123. Head and Spine Diagnosis and Decision Making*
- 124. Imaging of the Spine*
- 125. Emergency and Field-Side Management of the Spine-Injured Athlete*
- 126. Concussion and Brain Injury*
- 127. Stingers*
- 128. Traumatic Injuries of the Cervical Spine in the Athlete*
- 129. Traumatic Injuries of the Thoracolumbar Spine in the Athlete*
- 130. Degenerative Conditions of the Cervical and Thoracolumbar Spine*

#### ***SECTION 10 Pediatric Sports Medicine***

- 131. The Young Athlete*
- 132. Imaging Considerations in the Skeletally Immature Patient*
- 133. Shoulder Injuries in the Young Athlete*
- 134. Elbow Injuries in Pediatric and Adolescent Athletes*
- 135. Wrist and Hand Injuries in the Adolescent Athlete*
- 136. Pediatric and Adolescent Hip Injuries*
- 137. Knee Injuries in Skeletally Immature Athletes*
- 138. Foot and Ankle Injuries in the Adolescent Athlete*
- 139. Head Injuries in Skeletally Immature Athletes*
- 140. Spine Injuries in Skeletally Immature Athletes*
