

*Part I: History*

*Part II: Foundations of Regional Anesthesia*

*Section 1: Anatomy & Electrophysiology*

*Section 2: Pharmacology*

*Part III: Clinical Practice of Regional Anesthesia*

*Section 1 : Local & Infiltration Anesthesia*

*Section 2: Neuraxial Anesthesia*

*Section 3: Peripheral Nerve Blocks*

*Section 4: Blocks of the Head and Neck*

*Section 5: Upper Extremity Nerve Blocks*

*Section 6: Blocks for the Lower Extremity*

*Section 7: Intravenous Regional Blocks for the Upper & Lower Extremity*

*Part IV: New and Emerging Concepts in Peripheral Nerve BLocks: Equipment and Practice*

*Part V: Ultrasound-guided Regional Anesthesia*

*Part VI: Regional ANesthesia for Obstetric & Gynecologic Surgery*

*Part VII: Regional Anesthesia for Pediatric Surgery*

*Part VIII: Regional Anestheis in Patients with Special Considerations*

*Part IX: Perioperative Management of Patients Having Regional Anesthesia*

*Part X: Regional Anesthesia in Specific Patient Populations*

*Part XI: Neurologic Complications of Regional Anesthesia*

*Part XII: Does Regional Anesthesia Make a Difference?*

*Part XIII: Reginal Anestheisa & Acute Pain Management*

*Part XIV: Documentation & Training of Regional Anesthesia*
