

Section 1: Periprocedural Evaluation and Management

Chapter 1: Consultation

Geogy Vatakencherry, Alok Bhatt, and Amanjit S. Baadh

Chapter 2: Antibiotics

Monzer Chehab, Elias Antypas, Matthias J. Kirsch, and Aradhana M. Venkatesan

Chapter 3: Contrast Agents

Resmi A. Charalel and Martin R. Prince

Chapter 4: Wound Care

Amit Ramjit and Saad Shebrain

Section 2: Coagulation

Chapter 5: Bleeding Disorders, Coagulation Cascade and Anticoagulants

Derek Khorsand, Bethany Samuelson, and Christopher Ingraham

Section 3: Procedural Considerations

Chapter 6: Radiation Safety

Raymond H. Thornton

Chapter 7: Principles of Sedation and Analgesia

Alan Kotin, Jennifer Mascarenhas, and Mary Fischer

Chapter 8: Imaging Techniques

Daniel C. O'Brien, Junjuian Huang, and Scott A. Resnick

Section 4: Critical Care

Chapter 9: Cardiopulmonary Emergencies

Lisa K. Torres, James Horowitz, Kapil Rajwani, and David A. Berlin

Section 5: Basic Angiographic and Interventional Techniques

Chapter 10: Tools of the Trade: Catheters and Wires

Paul Lewis, Syed Aftab, and Charles Ray

Chapter 11: Arterial and Venous Access

Alexandra H. Fairchild and Robert A. Hieb

Chapter 12: Balloon Angioplasty and Stenting

Adam N. Plotnik, Joseph A. Tesoriero, and Stephen Kee

Chapter 13: Use of Thrombolytics

Albert. A. Scappaticci, Ronak Patel, and Sun Ho Ahn

Chapter 14: Basics of Embolization

M. Victoria Marx

Chapter 15: Introduction to Ablative Techniques

Christopher L. Brace and Paul F. Laeseke

Chapter 16: Venous Access

Mary E. Meek

Chapter 17: Biopses

Mohamed Abdelsalam, Rahul A. Sheth, and Sanjay Gupta

Section 6: Arterial Disease

Chapter 18: The Aorta

Kyle Cooper, Constantino S. Peña, and James F. Benenati

Chapter 19: Upper Extremity Arteries

Adam Zybulewski, Ilya Livshitz, Bhumika Patel, and Aaron Fischman

Chapter 20: Lower Extremity Arteries

Parag J. Patel and Diamanto "Amanda" Rigas

Section 7: Venous Disease

Chapter 21: Inferior Vena Cava (IVC) Embryology and Anatomy

John A. Kaufman

Chapter 22: Deep Venous System

Raja S. Ramaswamy and Suresh Vedantham

Chapter 23: Superficial Venous Disease

Ronald S. Winokur, Geraldine Abbey-Mensah, and Neil M. Khilnani

Section 8: Malformations

Chapter 24: Peripheral Malformations

David T. Jacobs, David C. Moe, and Patricia E. Burrows

Chapter 25: Pulmonary Arteriovenous Malformations

Jeffrey S. Pollack

Section 9: The Cardiopulmonary System

Chapter 26: Cardiopulmonary System: The Basics

Andrew L. Warren, Sreevathsan Sridhar, and Sanjeev Bhalla

Chapter 27: Arteriography and Endovascular Intervention in the Lungs

Darryl Zuckerman and Christina Marks

Chapter 28: Cardiopulmonary Diseases: Non-Vascular Diseases

John Smirniotopoulos, William Browne, and Resmi A. Charalel

Chapter 29: Cardiopulmonary System: Oncologic

Kyungmouk Steve Lee and Bradley B. Pua

Section 10: The Hepaticopancreaticobiliary System

Chapter 30: The Hepaticopancreaticobiliary System: The Basics

Anne M. Covey and Lynn A. Brody

Chapter 31: The Hepaticopancreaticobiliary System: Vascular

Chapter 32: Non-Vascular Hepatobiliary Interventions

Hooman Yarmohammadi and George I. Getrajdman

Chapter 33: Liver Transplant

Stephen V. Scheller and David M. Agarwal

Chapter 34: Malignant Biliary Obstruction

Vibhor Wadhwa, Robert Liddell, and Kelvin Hong

Chapter 35: Primary Liver Tumors

Samuel L. Rice, Stephen B. Solomon, and David C. Madoff

Chapter 36: Secondary Liver Tumors

Samuel L. Rice, David C. Madoff, and Stephen B. Solomon

Section 11: The Gastrointestinal System

Chapter 37: Gastrointestinal Tract: The Basics

Sophie Chheang

Chapter 38: Vascular Diseases of the Gastrointestinal System

Michael Darcy

Chapter 39: The Gastrointestinal System: Non-Vascular

Thomas J. Ward and Joshua Weintraub

Section 12: The Genitourinary System

Chapter 40: The Genitourinary System: The Basics

Divya Sridhar, Meredith McDermott, and Matthew Chiarello

Chapter 41: Percutaneous Interventions for Benign Disorders of the Kidney and Adrenal Gland

John F. Angle

Chapter 42: The Female Genital System: Vascular and Nonvascular

Pallavi Nadendla and Gary Siskin

Chapter 43: Male Genitourinary Interventions

Ronnie C. Chen, Matthew Quirk, and Justin P. McWilliam

Chapter 44: Adrenal and Renal-Oncologic

Melissa Flynn, Nathan Kwok, and Ronald S. Arellano

Chapter 45: Clinical Considerations in Hemodialysis Access Intervention

Eric K. Hoffer

Section 13: The Reticuloendothelial System

Chapter 46: The Reticuloendothelial System: The Basics

Jenny X. Qian and Bradley B. Pua

Chapter 47: The Reticuloendothelial System: Vascular, Non-Vascular, and Oncologic

Ernesto Santos, Joshua Pinter, and Kevin McCluskey

Section 14: The Skeletal System

Chapter 48: Musculoskeletal Interventions: The Basics

Majid Maybody

Chapter 49: Diseases of the Skeletal System

Tamir Friedman, James E. Brown, and Keith B. Quencer

Section 15: The Nervous System

Chapter 50: Interventional Related Spine Anatomy

Edward Jack Ebani, Kathryn Dean, and Apostolos John Tsiouris

Chapter 51: Pain Management

Noor Ahmad, Dan Shilo, and Sadiah Siddiqui
