**Section 1 Background**

*1 Indications for facial implants*

*2 Evaluation and planning for facial implant surgery*

*3 Implant materials*

*4 Principles and operative technique for facial skeletal augmentation*

**Section 2 Upper face**

*5 Cranioplasty*

*6 Temporal augmentation*

*7 Internal orbit*

**Section 3 Midface**

*8 Infraorbital rim*

*9 Malar*

*10 Pyriform aperture*

**Section 4 Lower face**

*11 Chin*

*12 Mandible*

**Section 5 Developing applications**

*13 Rejuvenation of the aging face and skeleton with implants*

*14 Designer faces: CAD/CAM facial implants*

*15 Implant refinement of postorthognathic surgery facial contour*
