

- 1 Patient Preparation and Positioning for Laparoscopic and Robotic Urologic Surgery*
- 2 Laparoscopic/ Robotic Camera and Lens Systems*
- 3 Basic Instrumentation*
- 4 Stapling and Reconstruction*
- 5 Robotic Surgical Systems*
- 6 Considerations for the Assistant*
- 7 Anesthetic Considerations for Laparoscopic and Robotic-Assisted Surgery*
- 8 Perioperative Management: Pain and Other Considerations for Enhanced Recovery after Surgery (ERAS)*
- 9 Insufflators and the Pneumoperitoneum*
- 10 Ports and Establishing Access into the Peritoneal Cavity*
- 11 Retroperitoneal Access*
- 12 Exiting the Abdomen and Closure Techniques*
- 13 Complications of Laparoscopic and Robotic-Assisted Surgery*
- 14 Retroperitoneal Lymph Node Dissection*
- 15 Nephrectomy*
- 16 Nephroureterectomy*
- 17 Partial Nephrectomy*
- 18 Live Donor Nephrectomy*
- 19 Laparoscopic Renal Cyst Decortication*
- 20 Laparoscopic Renal Biopsy*
- 21 Renal Cyst Decortication*
- 21 Renal Biopsy*
- 21 Delivery of Renal Ablative Technology*
- 22 Robotic Adrenalectomy*
- 23 Minimally Invasive Pyeloplasty*
- 24 Ureterolysis*
- 25 Laparoscopic and Robotic-Assisted Ureteral Reimplantation*
- 26 Boari Flap Ureteral Reimplantation*
- 27 Reconstruction for Complex Ureteral Strictures*
- 28 Pyelolithotomy, Ureterolithotomy, and Anatomic Nephrolithotomy*
- 29 Pelvic Lymph Node Dissection*
- 30 Simple Prostatectomy*

- 31 Transperitoneal Radical Prostatectomy*
- 32 Perineal Radical Prostatectomy*
- 33 Extraperitoneal Robot Assisted Radical Prostatectomy*
- 34 Radical Cystectomy*
- 35 Urinary Diversion*
- 36 Partial cystectomy and Diverticulectomy*
- 37 Robotic-Assisted Laparoscopic Continent Catheterizable Channels and Augmentation Enterocystoplasty*
- 38 Sacrocolpopexy*
- 39 Orchiopexy*
- 40 Orchiectomy*
- 41 Surgery of the Spermatic Cord.*
- 42 Robotic Applications for Infertility Surgeries*
- 43 Subcutaneous Modified Inguinal Lymph Node Dissection for Squamous Cell Carcinoma of the Penis*
