

Section I: Head

1 Atlanto-Occipital Block Technique

2 Atlantoaxial Block Technique

3 Sphenopalatine Ganglion Block: Transnasal Approach

4 Sphenopalatine Ganglion Block: Greater Palatine Foramen Approach

5 Sphenopalatine Ganglion Block: Lateral Approach

6 Sphenopalatine Ganglion Block: Radiofrequency Lesioning

7 Greater and Lesser Occipital Nerve Block

8 Greater and Lesser Occipital Nerve Block: Radiofrequency Lesioning

9 Gasserian Ganglion Block

10 Gasserian Ganglion Block: Radiofrequency Lesioning

11 Gasserian Ganglion Block: Balloon Compression Technique

12 Trigeminal Nerve Block: Coronoid Approach

13 Selective Maxillary Nerve Block: Suprazygomatic Approach

14 Selective Maxillary Nerve Block: Coronoid Approach

15 Selective Mandibular Nerve Block: Coronoid Approach

16 Supraorbital Nerve Block

17 Supratrochlear Nerve Block

18 Infraorbital Nerve Block: Extraoral Approach

19 Infraorbital Nerve Block: Intraoral Approach

20 Mental Nerve Block: Extraoral Approach

21 Mental Nerve Block: Intraoral Approach

22 Inferior Alveolar Nerve Block

23 Auriculotemporal Nerve Block

24 Greater Auricular Nerve Block

Section II: Neck

25 Glossopharyngeal Nerve Block: Extraoral Approach

26 Glossopharyngeal Nerve Block: Intraoral Approach

27 Glossopharyngeal Nerve Block: Radiofrequency Lesioning

28 Vagus Nerve Block

29 Spinal Accessory Nerve Block

30 Phrenic Nerve Block

31 Facial Nerve Block

32 Superficial Cervical Plexus Block

33 Deep Cervical Plexus Block

34 Superior Laryngeal Nerve Block

35 Recurrent Laryngeal Nerve Block

36 Stellate Ganglion Block: Anterior Approach

37 Stellate Ganglion Block: Posterior Approach

38 Stellate Ganglion Block: Vertebral Body Approach

39 Stellate Ganglion Block: Radiofrequency Lesioning

40 Third Occipital Nerve Block

41 Third Occipital Nerve Block: Radiofrequency Lesioning

42 Cervical Facet Block: Medial Branch Technique

43 Cervical Facet Neurolysis: Radiofrequency Lesioning of the Cervical Medial Branch

44 Cervical Facet Block: Intra-articular Technique

45 Cervical Epidural Block: Translaminar Approach

46 Cervical Epidural Block: Transforaminal Approach

47 Cervical Selective Nerve Root Block

48 Lysis of Cervical Epidural Adhesions: Racz Technique

Section III: Shoulder and Upper Extremity

49 Brachial Plexus Block: Interscalene Approach

50 Brachial Plexus Block: Supraclavicular Approach

51 Brachial Plexus Block: Infraclavicular Approach

52 Brachial Plexus Block: Retroclavicular Approach

53 Brachial Plexus Block: Axillary Approach

54 Suprascapular Nerve Block

55 Radial Nerve Block at the Humerus

56 Medial Cutaneous and Intercostobrachial Nerve Block

57 Radial Nerve Block at the Elbow

58 Median Nerve Block at the Elbow

59 Ulnar Nerve Block at the Elbow

60 Radial Nerve Block at the Wrist

61 Median Nerve Block at the Wrist

62 Ulnar Nerve Block at the Wrist

63 Metacarpal and Digital Nerve Block

64 Intravenous Regional Anesthesia

Section IV: Thorax and Chest Wall

65 Thoracic Epidural Nerve Block: Midline Approach

66 Thoracic Epidural Nerve Block: Paramedian Approach

67 Thoracic Epidural Nerve Block: Transforaminal Approach

68 Thoracic Paravertebral Nerve Block

69 Thoracic Facet Block: Medial Branch Technique

70 Thoracic Facet Block: Radiofrequency Lesioning of the Medial Branch of the Primary Posterior Rami

71 Thoracic Facet Block Intra-Articular Technique

72 Thoracic Sympathetic Ganglion Block

73 Pectoral Plane Nerve Block-PECS I

74 Pectoral Plane Nerve Block-PECS II

75 Serratus Anterior Plane Block

76 Erector Spinae Plane Block

77 Intercostal Nerve Block

78 Intercostal Nerve Block: Radiofrequency Lesioning

79 Interpleural Nerve Block: Percutaneous Technique

80 Interpleural Nerve Block: Tunneled Catheter Technique

Section V: Abdomen and Abdominal Wall

81 Splanchnic Nerve Block: Classic Two-Needle Technique

82 Splanchnic Nerve Block: Single-Needle Technique

83 Celiac Plexus Block: Classic Two-Needle Retrocrural Technique

84 Celiac Plexus Block: Single-Needle Retrocrural Technique

85 Celiac Plexus Block: Two-Needle Transcrural Technique

86 Celiac Plexus Block: Single-Needle Periaortic Technique

87 Celiac Plexus Block: Single-Needle Transaortic Technique

88 Celiac Plexus Block: Single-Needle Lateral Technique

89 Celiac Plexus Block: Single-Needle Anterior Technique

90 Transversus Abdominis Plane Block

91 Quadratus Lumborum Plane Block

92 Anterior Cutaneous Nerve Block

93 Lateral Cutaneous Nerve Block

94 Transversalis Fascia Plane Block

95 Ilioinguinal Nerve Block

96 Iliohypogastric Nerve Block

97 Genitofemoral Nerve Block

Section VI: Back and Pelvis

98 Lumbar Sympathetic Ganglion Block

99 Lumbar Sympathetic Ganglion Block: Radiofrequency Lesioning

100 Lumbar Paravertebral Nerve Block

101 Lateral Thoracolumbar Interfascial Plane Block: TLIP Block

102 Lumbar Facet Block: Medial Branch Technique

103 Lumbar Facet Block: Radiofrequency Lesioning of the Medial Branch of the Primary Posterior Rami

104 Lumbar Facet Block: Intra-Articular Technique

105 Lumbar Gray Ramus Communicans Block

106 Lumbar Gray Ramus Communicans Block: Radiofrequency Lesioning

107 Lumbar Epidural Block: Interlaminar Approach

108 Lumbar Epidural Block: Transforaminal Approach

109 Selective Nerve Root Block: Lumbar Nerves

110 Lumbar Subarachnoid Block: Midline Approach

111 Lumbar Subarachnoid Block: Paramedian Approach

112 Lumbar Subarachnoid Block: Lumbosacral Approach of Taylor

113 Lumbar Myelography

114 Superior Cluneal Nerve Block

115 Caudal Epidural Block: Prone Position

- 116 Caudal Epidural Block: Lateral Position*
- 117 Lysis of Epidural Adhesions: Racz Technique*
- 118 Sacral Nerve Block: Transsacral Approach*
- 119 Sacroiliac Lateral Branch Nerve Block*
- 120 Sacroiliac Lateral Branch-Radiofrequency Lesioning*
- 121 Hypogastric Plexus Block: Single-Needle Medial Paraspinous Technique*
- 122 Hypogastric Plexus Block: Classic Two-Needle Technique*
- 123 Hypogastric Plexus Block: Single-Needle Transdiscal Technique*
- 124 Hypogastric Plexus Block: Single-Needle Anterior Technique*
- 125 Ganglion of Walther (Impar) Block: Prone Technique*
- 126 Ganglion of Walther (Impar) Block: Transcoccygeal Technique*
- 127 Pudendal Nerve Block: Transvaginal Approach*
- 128 Pudendal Nerve Block: Transperineal Approach*
- 129 Pudendal Nerve Block: Transgluteal Approach*
- 130 Sacroiliac Joint Injection*
- 131 Sacroiliac Joint: Radiofrequency Lesioning*

Section VII: Lower Extremity

- 132 Lumbar Plexus Nerve Block: Winnie 3-in-1 Technique*
- 133 Lumbar Plexus Nerve Block: Fascia Iliaca Compartment Technique*
- 134 Lumbar Plexus Nerve Block: Psoas Compartment Technique*
- 135 Femoral Nerve Block*
- 136 Lateral Femoral Cutaneous Nerve Block*
- 137 Obturator Nerve Block*
- 138 Sciatic Nerve Block: Anterior Approach*

139 Sciatic Nerve Block: Posterior Approach

140 Sciatic Nerve Block: Lithotomy Approach

141 Piriformis Block

142 Posterior Femoral Cutaneous Nerve Block: Subgluteal Approach

143 Sciatic Nerve Block at the Femur: Lateral Approach

144 Adductor Canal Block

145 Tibial Nerve Block at the Knee: Posterior Approach

146 Tibial Nerve Block at the Knee: Lateral Approach

147 Tibial Nerve Block at the Ankle

148 Saphenous Nerve Block at the Knee

149 Saphenous Nerve Block at the Ankle

150 Common Peroneal Nerve Block at the Knee: Posterior Approach

151 Common Peroneal Nerve Block at the Knee: Lateral Approach

152 Deep Peroneal Nerve Block at the Ankle

153 Superficial Peroneal Nerve Block at the Ankle

154 Sural Nerve Block at the Ankle

155 Metatarsal and Digital Nerve Block of the Foot

Section VIII: Advanced Interventional Pain Management Techniques

156 Cervical Subarachnoid Neurolytic Block

157 Lumbar Subarachnoid Neurolytic Block

158 Implantation of Subcutaneously Tunneled One-Piece Epidural Catheters

159 Implantation of Subcutaneously Tunneled Two-Piece Epidural Catheters

160 Neuradenolysis of the Pituitary: Needle- Through-Needle Technique

161 Cervical Discography

162 Thoracic Discography

163 Lumbar Discography

164 Epiduroscopy

165 Intradiscal Electrothermal Annuloplasty

166 Percutaneous Intradiscal Nucleoplasty

167 Biacuplasty

168 Percutaneous Discectomy: Automated Technique

169 Percutaneous Discectomy: Laser-Assisted Technique

170 Percutaneous Laser-Assisted Annuloplasty

171 Minimally Invasive Lumbar Decompression (MILD) Procedure

172 Percutaneous Vertebroplasty

173 Percutaneous Balloon Kyphoplasty

174 Vertebral Compression Fracture Augmentation Using the Kiva VCF System

175 Percutaneous Sacroplasty

176 Dorsal Root Ganglion Stimulation

177 Cervical Spinal Cord Stimulation: Stage I Trial Stimulation

178 Lumbar Spinal Cord Stimulation: Stage I Trial Stimulation

179 Spinal Cord Stimulation: Stage II Pulse Generator Implantation

180 Sacral Neuromodulation

181 Peripheral Nerve Stimulation- Occipital Nerves

182 Cranial Nerve Stimulation- Trigeminal Nerves and Its Branches

183 Implantation of Totally Implantable Reservoirs and Injection Ports

184 Implantation of Totally Implantable Infusion Pumps

185 Percutaneous Posterior Facet Joint Spinal Fusion

186 Percutaneous Sacroiliac Joint Fusion

Index
