

VOLUME 1

Introduction: Hepatobiliary and Pancreatic Surgery: Historical Perspective

PART 1 Liver, Biliary, and Pancreatic Anatomy and Physiology

- 1 Embryologic Development of the Liver, Biliary Tract, and Pancreas
- 2 Surgical and Radiologic Anatomy of the Liver, Biliary Tract, and Pancreas
- 3 Pancreatic Physiology and Functional Assessment
- 4 Assessment of Hepatic Function: Implications for Perioperative Outcome and Recovery
- 5 Liver Blood Flow: Physiology, Measurement, and Clinical Relevance
- 6 Liver Regeneration: Mechanisms and Clinical Relevance
- 7 Liver Fibrogenesis: Mechanisms and Clinical Relevance
- 8 Bile Secretion and Pathophysiology of Biliary Tract Obstruction
- 9A Molecular and cell Biology of Hepatopancreatobiliary Disease: Introduction and Basic Principles
- 9B Molecular and Cell Biology of Liver Carcinogenesis and Hepatitis
- 9C Advances in the Molecular Characterization of Liver Tumors
- 9D Advances in the Molecular Characterization of Pancreatic Cancer and Pre-malignant Lesions
- 9E Advances in the Molecular Characterization of Biliary Tract and Gallbladder Cancer
- 10 Fundamentals of Liver and Pancreas Immunology
- 11 Infections in Hepatic, Biliary, and Pancreatic Surgery

PART 2 Diagnostic Techniques

- 12 Clinical Investigation of Hepatopancreatobiliary and Pancreatic Disease
- 13 Cross-Sectional Imaging of Liver, Biliary, and Pancreatic Disease: Introduction and Basic Principles
- 14 Imaging Features of Benign and Malignant Liver Tumors and Cysts
- 15 Imaging Features of Metastatic Liver Cancer
- 16 Imaging Features of Gallbladder and Biliary Tract Disease
- 17 Imaging Features of Benign and Malignant Pancreatic Disease
- 18 The Role of Nuclear Medicine in Diagnosis and Management of Hepatopancreatobiliary Diseases
- 19 Emerging Techniques in Diagnostic Imaging
- 20 Direct Cholangiography: Approaches, Techniques, and Current Role
- 21 Diagnostic Angiography in Hepatobiliary and Pancreatic Disease: Indications
- 22 Endoscopic Ultrasound of the Biliary Tract and Pancreas
- 23 Image-Guided Liver Biopsy
- 24 Intraoperative Diagnostic Techniques

PART 3 Anesthetic Management, Pre- and Postoperative Care

- 25 Liver and Pancreatic Surgery: Intraoperative Management
- 26 Nutrition and Perioperative Critical Care in the Hepatopancreatobiliary Surgery Patient
- 27 Enhanced Recovery Programs in Hepatobiliary Surgery
- 28 Postoperative Complications Requiring Intervention: Diagnosis and Management
- 29 The Impact of Hepatobiliary Interventions on Health and Quality of Life and Health

PART 4 Techniques of Biliary Tract Intervention: Radiologic, Endoscopic, and Surgical

- 30 Interventional Endoscopy for Biliary Tract Disease: Technical Aspects
- 31 Radiologic Hepatobiliary Interventions

32 Bile Duct Exploration and Biliary-Enteric Anastomosis

PART 5 Biliary Tract Disease

SECTION I Inflammatory, Infective, and Congenital

A Gallstones and Gallbladder

33 The Natural History of Symptomatic and Asymptomatic Gallstones

34 Cholecystitis

35 Percutaneous Treatment of Gallbladder Disease

36 Cholecystectomy Techniques and Postoperative Problems

37A Stones in the Bile Duct: Clinical Features and Open Surgical Approaches and Techniques

37B Stones in the Bile Duct: Minimally Invasive Surgical Approaches

37C Stones in the Bile Duct: Endoscopic and Percutaneous Approaches

38 Cholelithiasis and Stones in the Common Bile Duct: Which Approach and When?

39 Intrahepatic Stone Disease

B Biliary Stricture and Fistula

40 Extrahepatic Biliary Atresia

41 Primary Sclerosing Cholangitis

42 Benign Biliary Strictures and Biliary Fistulae

C Biliary Infection and Infestation

43 Cholangitis

44 Recurrent Pyogenic Cholangitis

45 Biliary Parasitic Disease

D Cystic Disease of the Biliary Tract

46 Bile Duct Cysts in Adults

SECTION II Neoplastic

A General

47 Tumors of the Bile Ducts: Pathologic Features

B Benign Tumors

48 Benign Tumors and Pseudotumors of the Biliary Tract

49 Tumors of the Gallbladder

50 Intrahepatic Cholangiocarcinoma

51A Extrahepatic Biliary Tumors

51B Perihilar Cholangiocarcinoma: Presurgical Management

52 Interventional Techniques in Hilar and Intrahepatic Biliary Strictures

PART 6 Pancreatic Disease

SECTION I Inflammatory, Infective, and Congenital

A Congenital Disorders

53 Congenital Disorders of the Pancreas: Surgical Considerations

B Pancreatitis

54 Definition and Classification of Pancreatitis

55 Etiology, Pathogenesis, and Diagnostic Assessment of Acute Pancreatitis

56 Management of Acute Pancreatitis and Pancreatitis-Related Complications

57 Etiology, Pathogenesis, and Diagnosis of Chronic Pancreatitis

58 Management of Chronic Pancreatitis: Conservative, Endoscopic, Surgical

SECTION II Neoplastic

A General

59 *Tumors of the Pancreas and Ampulla*

B Benign and Premalignant Tumors

60 *Cystic Neoplasms of the Pancreas: Epidemiology, Clinical Features, Assessment, and Management*

C Malignant Tumors

61 *Pancreatic Cancer: Epidemiology*

62 *Pancreatic Cancer: Clinical Aspects, Assessment, and Management*

63 *Duodenal Adenocarcinoma*

64 *Pancreas as a Site of Metastatic Cancer*

D Endocrine Tumors

65 *Pancreatic Neuroendocrine Tumors: Classification, Clinical Picture, Diagnosis, and Therapy*

66 *Chemotherapy and Radiotherapy for Pancreatic Cancer: Adjuvant, Neoadjuvant, and Palliative*

67 *Palliative Treatment of Pancreatic and Periampullary Tumors*

VOLUME 2

PART 7 Hepatic Disease

SECTION I Inflammatory, Infective, and Congenital

A Hepatitis

68 *Chronic Hepatitis: Epidemiology, Clinical Features, and Management*

69 *Hepatic Steatosis, Steatohepatitis, and Chemotherapy-Related Liver Injury*

B Liver Infection and Infestation

70 *Pyogenic Liver Abscess*

71 *Amebiasis and Other Parasitic Infections*

72 *Hydatid Disease of the Liver*

C Nonparasitic Liver Cysts

73 *Simple Cysts and Polycystic Liver Disease: Clinical and Radiographic Features and Surgical and Nonsurgical Management*

D Hepatic Cirrhosis, Portal Hypertension, and Hepatic Failure

74 *Cirrhosis and Portal Hypertension: Pathologic Aspects*

75 *Nonhepatic Surgery in the Cirrhotic Patient*

76 *Portal Hypertension in Children*

77 *Management of Liver Failure*

78 *Support of the Failing Liver*

79 *Management of Ascites in Cirrhosis and*
