

I. General Principles

Front Matter

1. Concepts and Strategies of Surgery

Andreas M. Kaiser, Carol E. H. Scott-Conner

2. Mechanical Basics of Operative Technique

Constantine P. Spanos, Carol E. H. Scott-Conner

3. Incision, Exposure, Closure

Constantine P. Spanos, Andreas M. Kaiser, Carol E. H. Scott-Conner

4. Dissecting and Suturing

Constantine P. Spanos, Andreas M. Kaiser, Carol E. H. Scott-Conner

5. Surgical Stapling: Principles and Precautions

Erik R. Noren, Sang W. Lee

6. Control of Bleeding

Morgan Schellenberg, Kenji Inaba

7. Management of the Contaminated Operation

Rahila Essani, Donald C. LaSeur, Andreas M. Kaiser

8. Damage Control Laparotomy

James M. Bardes, Kenji Inaba

9. Mechanical Basics of Laparoscopic Surgery

Sarah M. Popek, Zoë O. Jones

10. Rational Use of Drains

Kulmeet K. Sandhu

11. Illustrated Glossary of Surgical Instruments

Erik R. Noren, Andreas M. Kaiser

12. Surgical Documentation, Informed Consent, and Operative Note

Andreas M. Kaiser

II. Esophagus

Front Matter

1. Concepts in Esophageal Surgery

Olugbenga T. Okusanya, James D. Luketich

2. *Laparoscopic and Thoracoscopic Ivor Lewis Esophagectomy*

Simon R. Turner, Daniela Molena, Virginia R. Litle

3. *Transhiatal Esophagectomy*

Arjun Pennathur, Peter F. Ferson, Rodney Landreneau

4. *Laparoscopic Heller Myotomy for Achalasia*

Jeffrey E. Quigley, Keith R. Scharf

5. *Endoscopic Stent for Management of Esophageal Leaks*

Eugene Kahn, Shaun Daly
