

## Section 1 Pediatric Trauma

- 1 Proximal Humerus and Clavicle Complications
- 2 Supracondylar Humerus Fractures
- 3 Lateral Condyle Fractures
- 4 Medial Condyle and Medial Epicondyle Fractures
- 5 Forearm Fractures
- 6 Complications of Distal Radius and Ulna Fractures in Children
- 7 Hand/Finger Fractures
- 8 Complications in Pediatric Cervical Spine Trauma
- 9 Complications in Thoracolumbar Spine Trauma
- 10 Complications in Pediatric Pelvic and Proximal Femur Fractures
- 11 Complications in the Treatment of Pediatric Femoral Shaft Fractures
- 12 Fractures About the Knee
- 13 Complications in Tibial Shaft Fractures
- 14 Ankle Fractures
- 15 Foot Fractures

## Section 2 Upper Extremity

- 16 Brachial Plexus Reconstruction
- 17 Syndactyly
- 18 Complications in Surgery of the Thumb
- 19 Cubitus Varus/Valgus Correction

## Section 3 Spine

- 20 Complications in the Treatment of Adolescent Idiopathic Scoliosis
- 21 Complications in the Treatment of Neuromuscular Spine
- 22 Congenital Spine Deformities
- 23 Complications in Kyphosis in Children
- 24 Pediatric Complications: Growing Rod Treatment

## Section 4 Lower Extremity

25 Complications Associated With Management of Septic Arthritis of the Hip in Pediatric Patients

26 Complications of Closed Reduction of Developmental Dysplasia of the Hip

27 Complications in Open Treatment of Developmental Dysplasia of the Hip

28 Complications of the Periacetabular Osteotomy for Treatment of Adolescent Hip Dysplasia

29 Proximal Femoral Osteotomies

30 Complications of Surgical Treatment of Perthes Disease

31 Complications in Treatment of Slipped Capital Femoral Epiphysis

32 Complications in Surgical Management of Adolescent Blount Disease

33 Complications Associated with Epiphysiodesis and Hemiepiphysiodesis

34 Surgical Management of Clubfoot

35 Complications in Pediatric Flatfoot Reconstruction

36 Tarsal Coalition Resection

37 Cavus Foot Correction

## Section 5 Neuromuscular/Congenital Disorders

38 Osteotomies for Osteogenesis Imperfecta

39 Spastic Hip Dislocation

40 Complications of Upper Extremity Surgery for Neuromuscular Disorders

41 Complications in Lower Extremity Soft Tissue Surgery in Neuromuscular Patients
