

SECTION I Essential Renal Anatomy and Physiology

1 Renal Anatomy

2 Renal Physiology

SECTION II Investigation of Renal Disease

3 Assessment of Glomerular Filtration Rate

4 Urinalysis

5 Point of Care Ultrasound in Nephrology

6 Radiologic and Nuclear Imaging in Nephrology

7 Kidney Biopsy

SECTION III Fluid and Electrolyte Disorders

8 Disorders of Extracellular Volume

9 Disorders of Water Metabolism

10 Disorders of Potassium Metabolism

11 Disorders of Calcium, Phosphate, and Magnesium Metabolism

12 Normal Acid-Base Balance

13 Metabolic Acidosis

14 Metabolic Alkalosis

15 Respiratory Acidosis, Respiratory Alkalosis, and Mixed Acid-Base Disorders

SECTION IV Glomerular Disease

16 Introduction to Glomerular Disease: Clinical Presentations

17 Introduction to Glomerular Disease: Histologic Classification and Pathogenesis

18 Minimal Change Disease

19 Primary and Secondary (Nongenetic) Causes of Focal and Segmental Glomerulosclerosis

20 Inherited Causes of Nephrotic Syndrome

21 Membranous Nephropathy

22 Immunoglobulin-Mediated Glomerulonephritis With a Membranoproliferative Pattern of Injury and Cryoglobulinemic Glomerulonephritis

23 Glomerulonephritis Associated With Complement Disorders

24 Immunoglobulin A Nephropathy and Immunoglobulin A Vasculitis (Henoch-Schönlein Purpura)

25 Anti–Glomerular Basement Membrane Disease and Goodpasture Disease

26 Renal and Systemic Vasculitis

27 Lupus Nephritis

28 Monoclonal Immunoglobulin–Related Glomerular Diseases and Renal Amyloidosis

29 Rare Glomerular Disorders

30 Thrombotic Microangiopathies, Including Hemolytic Uremic Syndrome

SECTION V Diabetic Kidney Disease

31 Pathogenesis, Clinical Manifestations, and Natural History of Diabetic Kidney Disease

32 Prevention and Treatment of Diabetic Kidney Disease

33 Management of Patients With Diabetes and Chronic Kidney Disease

SECTION VI Hypertension

34 Normal Blood Pressure Control and the Evaluation of Hypertension

35 Primary Hypertension

36 Nonpharmacologic Prevention and Treatment of Hypertension

37 Pharmacologic Treatment of Hypertension

38 Evaluation and Treatment of Hypertensive Urgencies and Emergencies

39 Endocrine Causes of Hypertension: Aldosterone

40 Other Endocrine Causes of Hypertension

41 Neurogenic Hypertension, Including Hypertension Associated With Stroke or Spinal Cord Injury

42 Blood Pressure Management in the Dialysis Patient

SECTION VII Renovascular Disease

43 Renovascular Hypertension, Atherosclerotic Renal Vascular Disease, and Thromboembolic Kidney Disease

SECTION VIII Pregnancy and Renal Disease

44 Kidney Physiology and Complications in Normal Pregnancy

45 Pregnancy With Preexisting Kidney Disease

SECTION IX Hereditary and Congenital Diseases of the Kidney

46 Autosomal Dominant Polycystic Kidney Disease

47 Other Cystic Kidney Diseases

48 Alport Syndrome and Other Familial Glomerular Syndromes

49 Inherited Disorders of Sodium and Water Handling

50 Fanconi Syndrome and Other Proximal Tubule Disorders

51 Sickle Cell Diseases and the Kidney

52 Congenital Anomalies of the Kidney and Urinary Tract

SECTION X Infectious Diseases and the Kidney

53 Urinary Tract Infections in Adults

54 Tuberculosis of the Urinary Tract

55 Fungal Infections of the Urinary Tract

56 The Kidney in Schistosomiasis

57 Glomerular Diseases Associated With Infection

58 Human Immunodeficiency Virus Infection and the Kidney

59 Kidney Diseases Associated With Coronaviruses

SECTION XI Urologic Disorders

60 Nephrolithiasis and Nephrocalcinosis

61 Urinary Tract Obstruction

62 Primary Vesicoureteral Reflux and Reflux Nephropathy

63 Urologic Issues for the Nephrologist

SECTION XII Tubulointerstitial and Vascular Diseases

64 Acute Interstitial Nephritis

65 Chronic Interstitial Nephritis

66 Endemic Nephropathies

SECTION XIII Renal Disease and Cancer

67 Oncology: Kidney Disease in Cancer Patients

68 Myeloma and the Kidney

69 Kidney Disease in Liver, Cardiac, Lung, and Hematopoietic Stem Cell Transplantation

SECTION XIV Acute Kidney Injury

70 Pathophysiology and Etiology of Acute Kidney Injury

71 Acute Kidney Injury in the Tropics

72 Diagnosis and Clinical Evaluation of Acute Kidney Injury

73 Epidemiology and Prognostic Impact of Acute Kidney Injury and Acute Kidney Disease

74 Prevention and Nondialytic Management of Acute Kidney Injury

75 Extracorporeal Therapies for Acute Kidney Injury and Heart Failure

76 Hepatorenal Syndrome

SECTION XV Drug Therapy in Kidney Disease

77 Principles of Drug Therapy, Dosing, and Prescribing in Chronic Kidney Disease and Kidney Replacement Therapy

78 Common Issues in Prescribing in Kidney Disease and Kidney Replacement Therapy

79 Herbal and Over-the-Counter Medicines and the Kidney

SECTION XVI Chronic Kidney Disease and Uremic Syndrome

80 Epidemiology of Chronic Kidney Disease and Dialysis

81 Pathophysiology of Disease Progression in Proteinuric and Nonproteinuric Kidney Disease

82 Slowing the Progression of Kidney Disease

83 Clinical Evaluation and Management of Chronic Kidney Disease

84 Pathogenesis and Risk of Cardiovascular Disease in Chronic Kidney Disease

85 Practical Management of Cardiovascular Disease in Chronic Kidney Disease

86 Anemia in Chronic Kidney Disease

87 Other Blood and Immune Disorders in Chronic Kidney Disease

88 Bone and Mineral Disorders in Chronic Kidney Disease

89 Neurologic Complications of Chronic Kidney Disease

90 Nutrition in Chronic Kidney Disease

91 Dermatologic Manifestations of Chronic Kidney Disease

92 Acquired Cystic Kidney Disease and Malignant Neoplasms

SECTION XVII Geriatric and Palliative Nephrology

93 Geriatric Nephrology

94 Palliative Nephrology

SECTION XVIII Dialytic Therapies

95 Approach to Kidney Replacement Therapy

96 Vascular Access for Hemodialysis

97 Diagnostic and Interventional Nephrology

98 Hemodialysis

99 Hemodialysis

100 Acute Complications During Hemodialysis

101 Peritoneal Dialysis: Principles, Techniques, and Adequacy

102 Complications of Peritoneal Dialysis

103 Extracorporeal Therapies for Drug Overdose and Poisoning

104 Plasma Exchange

SECTION XIX Transplantation

105 Immunologic Principles in Kidney Transplantation

106 Immunosuppressive Medications in Kidney Transplantation

107 Evaluation and Preoperative Management of Kidney Transplant Recipient and Donor

108 Kidney Transplantation Surgery

109 Prophylaxis and Treatment of Kidney Transplant Rejection

110 Infections and Malignancies in the Kidney Transplant Recipient

111 Cardiovascular Disease and Metabolic Abnormalities in the Kidney Transplant Recipient

112 Chronic Allograft Injury

113 Recurrent Disease in Kidney Transplantation

114 Outcomes of Kidney Transplantation: Identification, Measures, and Evaluation
