

## **Cardiac**

*Introduction*

*Approach to Cardiac Imaging*

*Function and Coronary Artery Disease*

*Left Ventricular Function*

*Myocardial Infarction and Ischemia*

*Myocardial Viability*

*Right-to-Left Shunt*

*Cardiomyopathy*

*Cardiac Sarcoidosis*

*Cardiac Amyloidosis*

## **Central Nervous System**

*Introduction*

*Approach to Central Nervous System Imaging*

*Cerebrospinal Fluid*

*CSF Leak Evaluation*

*CSF Shunt Patency*

*Normal Pressure Hydrocephalus*

*Dementia*

*Alzheimer Disease*

*Frontotemporal Dementia*

*Lewy Body Disease*

*Multi-Infarct Dementia*

*Infection and Inflammation*

*Brain Abscess and Encephalitis*

*Movement Disorders*

*Parkinsonian Syndromes*

*Vascular*

*Brain Death*

*Cerebrovascular Ischemia*

## **Gastrointestinal**

*Introduction*

*Approach to Gastrointestinal Imaging*

*Hepatobiliary*

*Acute Cholecystitis and Biliary Obstruction*

*Biliary Leak*

*Functional Hepatobiliary Disease*

*Benign Solid Liver Lesions*

*Gastrointestinal*

*Gastrointestinal Bleeding*

*Gastroparesis*

*Rapid Gastric Transit*

*Infection and Inflammation*

*Abdominal Infection and Inflammatory Disease*

*Spleen*

*Spleen Localization*

***Lymphatic and Vascular***

*Introduction*

*Approach to Lymphatic and Vascular Imaging*

*Lymphatic*

*Lymphedema*

*Sentinel Lymph Node Mapping*

*Vascular*

*Large Vessel Vasculitis*

*Vascular Graft Infection*

***Musculoskeletal***

*Introduction*

*Approach to Musculoskeletal Imaging*

*Bone Tumors*

*Bone Neoplasms*

*Metastatic Bone Tumors*

*Bone Dysplasias*

*Fibrous Dysplasia*

*Paget Disease*

*Bone Mineral Density*

*Osteopenia and Osteoporosis*

*Infection and Inflammation*

*Arthroplasty Complication*

*Inflammatory Arthritis*

*Osteomyelitis and Septic Arthritis*

*Metabolic Disease*

*Metabolic Bone Disease*

*Trauma*

*Heterotopic Ossification*

*Occult Fracture*

*Stress and Insufficiency Fracture*

*Vascular*

*Avascular Necrosis*

*Complex Regional Pain Syndrome*

*Sickle Cell Disease*

***Thyroid and Parathyroid***

*Introduction*

*Approach to Thyroid and Parathyroid Imaging*

*Thyroid*

*Graves Disease*

*Nodular Thyroid Disease*

*Parathyroid*

*Parathyroid Adenoma*

***Thoracic***

*Introduction*

*Approach to Thoracic Imaging*

*Infection and Inflammation*

*Atypical Infectious Diseases*

*Granulomatous Disease*

*Lung Perfusion and Ventilation*

*Pulmonary Embolism*

*Quantitative Lung Perfusion*

***Urinary Tract***

*Introduction*

*Approach to Urinary Tract Imaging*

*Infection and Inflammation*

*Renal Scar and Pyelonephritis*

*Renal Function*

*Hydronephrosis*

*Vesicoureteral Reflux*

*Renal Transplant Evaluation*

*Renovascular Hypertension*

*GFR Analysis*

***Pediatrics***

*Introduction*

*Approach to Pediatric Imaging*

*Central Nervous System*

*Seizure*

*Thyroid*

*Congenital Hypothyroidism*

*Pediatric Salivary Function*

*Gastrointestinal*

*Gastric Motility*

*Meckel Diverticulum*

*Aspiration*

*Hepatobiliary*

*Biliary Atresia*

*Infection and Inflammation*

*Fever of Unknown Origin*

*Osteomyelitis and Septic Joint*

*Musculoskeletal*

*Avascular Necrosis*

*Pediatric Lower Back Pain*

*Nonaccidental Trauma*

*Miscellaneous*

*Nasolacrimal Complex Obstruction*

*Salivary Gland Scintigraphy*

***Oncology***

*Introduction*

*Approach to Oncologic Imaging*

*Breast*

*Benign Breast Conditions*

*Breast Malignancy*

*Central Nervous System*

*Brain Metastases*

*Post-Radiation CNS Evaluation*

*Meningioma*

*Cutaneous*

*Melanoma*

*Gastrointestinal Tract*

*Esophageal Cancer*

*Gastric Carcinoma and Gastrointestinal Stromal Tumor*

*Colorectal and Anal Cancer*

*Head and Neck*

*Salivary Gland Tumors*

*Squamous Cell Carcinoma*

*Hepatobiliary*

*Hepatocellular Carcinoma*

*Cholangiocarcinoma and Gallbladder Cancer*

*Lymphoma*

*Hodgkin Lymphoma*

*Non-Hodgkin Lymphoma*

*Musculoskeletal*

*Multiple Myeloma*

*Neuroendocrine*

*Carcinoid Tumor*

*Pancreatic Neuroendocrine Tumors*

*Pheochromocytoma and Paraganglioma*

*Medullary Thyroid Carcinoma*

*Pancreas*

*Pancreatic Adenocarcinoma*

*Reproductive Organs*

*Uterine and Endometrial Cancers*

*Ovarian Cancer*

*Cervical Cancer*

*Vulvar and Vaginal Cancer*

*Prostate Cancer*

*Testicular Cancer*

*Thoracic*

*Malignant Pleural Mesothelioma*

*Non-Small Cell Lung Cancer*

*Small Cell Lung Cancer*

*Thymoma and Thymic Carcinoma*

*Solitary Pulmonary Nodule*

*Pulmonary Carcinoid Tumor*

*Thyroid*

*Papillary and Follicular Thyroid Cancer*

*Urinary Tract*

*Renal Cell Carcinoma*

*Transitional Cell Carcinoma*

*Pediatrics*

*Ewing Sarcoma*

*Neuroblastoma*

*Osteosarcoma*

*Pediatric Somatostatin Receptor Positive Tumors*

*Nuclear Medicine Therapy*

*I-131 Thyroid Cancer Therapy*

*I-131 Hyperthyroid Therapy*  
*Lymphoma Therapy*  
*Hepatic Metastases Therapy*  
*Metastatic Bone Tumor Therapy*  
*Approach to Nuclear Medicine Therapy*  
*Neuroendocrine Tumor Therapy*  
*Prostate Cancer Therapy*  
*Physics*  
*Basic Physics and Radionuclides*  
*Nonimaging Detectors*  
*Gamma Camera Imaging*  
*SPECT*  
*PET*  
*Radiation Biology and Dose*  
*Safety*  
*Medical Use of Byproduct Material*  
*Medical Use of Byproduct Material*  
*General Administrative Requirements*  
*General Technical Requirements*  
*Radioactive Spills*
