

Part I: Gynecologic Cytopathology

SECTION 1: OVERVIEW

4 Pap Test and Cervical Cancer Screening: History and Reporting Terminology

Nikolaos Chantziantoniou, PhD, ART(CSMLS), CFIAC and Dina R. Mody, MD

8 Cytopreparation, Instrumentation, and Automated Screening in Gynecologic

Cytology Michael J. Thrall, MD and Debora A. Smith, CT(ASCP)

10 Specimen Adequacy in Cervicovaginal Cytology Dina R. Mody, MD and George G. Birdsong, MD

SECTION 2: BENIGN AND INFECTIOUS CONDITIONS

14 Normal Pap Test Nikolaos Chantziantoniou, PhD, ART(CSMLS), CFIAC and Dina R. Mody, MD

16 Infectious and Other Organisms in Pap Tests Nikolaos Chantziantoniou, PhD, ART(CSMLS), CFIAC and Dina R. Mody, MD

18 Nonneoplastic Findings, Mimics, and Artifacts Ekene I. Okoye, MD and Dina R. Mody, MD

SECTION 3: SQUAMOUS CELL ABNORMALITIES AND MIMICS

28 Low-Grade Squamous Intraepithelial Lesion and Mimics Dina R. Mody, MD

30 High-Grade Squamous Intraepithelial Lesion and Mimics Dina R. Mody, MD and Ekene I. Okoye, MD

34 Atypical Squamous Cells of Undetermined Significance Nikolaos Chantziantoniou, PhD, ART(CSMLS), CFIAC and Dina R. Mody, MD

36 Atypical Squamous Cells, Cannot Rule Out High-Grade Squamous Intraepithelial Lesion Dina R. Mody, MD and Nikolaos Chantziantoniou, PhD, ART(CSMLS), CFIAC

38 Squamous Cell Carcinoma of Cervix, Variants and Mimics Dina R. Mody, MD

46 Endocervical Adenocarcinoma In Situ, Variants and Mimics Dina R. Mody, MD

52 Endocervical Adenocarcinoma, Variants and Mimics Dina R. Mody, MD

56 Adenocarcinoma, Gastric Type Dina R. Mody, MD

58 Endometrial Cancers: Usual Types, Variants, and Mimics Ekene I. Okoye, MD and Dina R. Mody, MD

64 Atypical Glandular Cells: Endocervicals, Endometrials, and Glandulars, NOS Dina R. Mody, MD

70 Endometrial Cells in Pap Test and Glandular Cells Status Post Hysterectomy Dina R. Mody, MD and Ekene I. Okoye, MD

74 Extrauterine Carcinomas and Presentations in Cervicovaginal Cytology Dina R. Mody, MD

76 Neuroendocrine Carcinoma of Cervix Dina R. Mody, MD

78 Other Uncommon Malignancies in Cervicovaginal Cytology Dina R. Mody, MD

84 HPV and Other Molecular Testing in Gynecologic Cytology Michael J. Thrall, MD

90 Directly Sampled Endometrial Cytology Yuko Sugiyama, MD, PhD, FIAC and Dina R. Mody, MD

96 Anal Cytology Michael J. Thrall, MD

Part II: Exfoliative Cytopathology

Specimen Types in Respiratory Cytology and Adequacy Criteria Michael J. Thrall, MD

102 Benign and Reactive Changes Michael J. Thrall, MD

106 Pneumocystis Pneumonia and Mimics Michael J. Thrall, MD

108 Fungal Organisms in Respiratory Cytology Michael J. Thrall, MD Parasitic

Organisms in Respiratory Cytology Michael J. Thrall, MD

112 Viral Infections (Cytomegalovirus, Herpesvirus, and Others) Michael J. Thrall, MD

114 Mycobacteria and Other Bacterial Infections Michael J. Thrall, MD

116 Sarcoidosis and Other Immune-Related Conditions Michael J. Thrall, MD

118 Pulmonary Alveolar Proteinosis and Mimics Michael J. Thrall, MD Miscellaneous Findings, Including Contaminants Michael J. Thrall, MD

122 Adenocarcinoma Michael J. Thrall, MD

126 Squamous Cell Carcinoma Michael J. Thrall, MD

128 Small Cell Carcinoma Michael J. Thrall, MD Large Cell Neuroendocrine Carcinoma Michael J. Thrall, MD

132 Carcinoid and Atypical Carcinoid Michael J. Thrall, MD

134 Rare Benign and Low Malignant Potential Tumors Michael J. Thrall, MD

136 Rare Malignant Tumors Michael J. Thrall, MD

138 NUT Carcinoma Michael J. Thrall, MD

139 SMARCA4-Deficient Undifferentiated Tumor Michael J. Thrall, MD Pulmonary Lymphoma Michael J. Thrall, MD

142 Pulmonary Metastasis Michael J. Thrall, MD

146 *Specimen Types in Gastrointestinal Cytology and Normal Cellular Components*
Blythe K. Gorman, MD

148 *Parasitic Infections* Blythe K. Gorman, MD *Viral Infections* Blythe K. Gorman, MD

152 *Esophagitis and Barrett Esophagus* Blythe K. Gorman, MD

154 *Esophageal Adenocarcinoma* Blythe K. Gorman, MD

156 *Esophageal Squamous Cell Carcinoma* Blythe K. Gorman, MD

158 *Gastritis and Intestinal Metaplasia* Blythe K. Gorman, MD *Gastric Adenocarcinoma* Blythe K. Gorman, MD

162 *Gastric Lymphoma* Blythe K. Gorman, MD

164 *Ampulla/Bile Duct/Pancreatic Duct Reactive Changes* Blythe K. Gorman, MD

166 *Ampulla/Bile Duct/Pancreatic Duct Adenocarcinoma* Blythe K. Gorman, MD

168 *Colorectal Adenoma/Carcinoma* Blythe K. Gorman, MD *Neuroendocrine Tumor/Carcinoma* Blythe K. Gorman, MD

172 *Spindle Cell Neoplasms of Gastrointestinal Tract, Including Gastrointestinal Stromal Tumors* Blythe K. Gorman, MD

176 *Normal Cerebrospinal Fluid and Contamination by Normal Elements* Hidehiro Takei, MD *Infectious Meningitis* Hidehiro Takei, MD

182 *Aseptic and Mollaret Meningitis* Hidehiro Takei, MD

184 *Subarachnoid Hemorrhage* Hidehiro Takei, MD

186 *Neurodegenerative Diseases* Hidehiro Takei, MD

188 *Primary Brain Tumors* Hidehiro Takei, MD *Leukemia and Lymphoma* Hidehiro Takei, MD

192 *Metastasis in Cerebrospinal Fluid* Hidehiro Takei, MD

196 *Normal Cellular Components, Reactive Mesothelial Proliferations, and Reporting Terminology* Donna M. Coffey, MD and Michael J. Thrall, MD *Infectious Conditions* Donna M. Coffey, MD and Michael J. Thrall, MD

202 *Autoimmune Diseases* Donna M. Coffey, MD and Michael J. Thrall, MD

204 *Malignant Effusion, Mesothelioma*

208 *Malignant Effusion, Carcinomas*

212 *Malignant Effusion, Sarcomas*
Donna M. Coffey, MD, Nour Sneige, MD, and Michael J. Thrall, MD

214 Lymphoid Effusions and Lymphomas Donna M. Coffey, MD and Michael J. Thrall, MD

216 Primary Effusion Lymphoma John M. Stewart, MD, PhD and Michael J. Thrall, MD

218 Endometriosis and Endosalpingiosis Donna M. Coffey, MD, Nour Sneige, MD, and Michael J. Thrall, MD

220 Ovarian Neoplasms Donna M. Coffey, MD and Michael J. Thrall, MD

222 Immunocytochemistry, Histochemistry, and Other Ancillary Techniques Donna M. Coffey, MD and Michael J. Thrall, MD

228 Normal Urinary Cytology, Specimen Types, and Reporting Terminology Michael J. Thrall, MD and Rose Anton, MD

232 Ileal Conduit Specimens Rose Anton, MD and Michael J. Thrall, MD

234 Noninfectious Benign Conditions Rose Anton, MD and Michael J. Thrall, MD

236 Infectious Benign Conditions Rose Anton, MD and Michael J. Thrall, MD
