

*Overview of Gross and Microscopic Changes*

*Umbilical Cord*

*Gross Evaluation and Normal Histology of Umbilical Cord*

*Knots*

*Umbilical Cord Edema and Thinning*

*Histopathologic Changes of Umbilical Cord*

*Extraplacental Membranes*

*Gross Evaluation and Normal Histology of Membranes*

*Histopathologic Changes of Membranes*

*Chorionic Plate*

*Gross Evaluation and Normal Histology of Chorionic Plate*

*Histopathologic Changes of Chorionic Plate*

*Stem Villi*

*Gross Evaluation and Normal Histology of Stem Villi*

*Histopathologic Changes of Stem Villi*

*Chorionic Villi*

*Gross Evaluation and Normal Histology of Chorionic Villi*

*Histopathologic Changes of Chorionic Villi*

*Septa, Intervillous Space, and Basal Plate*

*Gross Evaluation and Normal Histology of Septa, Intervillous Space, and Basal Plate*

*Histopathologic Changes of Septa, Intervillous Space, and Basal Plate*

*Decidua*

*Gross Evaluation and Normal Histology of Decidua*

*Histopathologic Changes of Decidua*

*Placental Diagnoses*

*Meconium*

*Meconium-Stained Placenta*

*Amniotic Fluid Infection Sequence*

*Amniotic Fluid Infection Sequence (Maternal and Fetal Inflammatory Response)*

*Group B Streptococcus*

*Other Bacterial and Mycobacterial Species*

*Candida*

*Placental Infections With Villitis and Other Findings*

*Cytomegalovirus*

*Parvovirus B19*

*Herpes Simplex Virus*

*Other Viruses*

*Syphilis*

*Coccidioidomycosis*

*Parasites*

*Chronic Inflammatory Lesions*

*Cellular Composition of Chronic Inflammatory Lesions*

*Chronic Villitis and Intervillositis*

*Basal Chronic Villitis and Chronic Deciduitis*

*Chronic Chorioamnionitis*

*Eosinophilic/T-Cell Chorionic Vasculitis*

*Massive Perivillous Fibrin Deposition and Maternal Floor Infarction*

*Massive Perivillous Fibrin Deposition and Maternal Floor Infarction*

*Fetal Vasculopathy*

*Large Vessel Fetal Vascular Occlusion*

*Distal Villous Lesions Associated With Fetal Vascular Occlusion*

*Placental Abruption*

*Acute Abruption and Retroplacental Hematoma*

*Chronic Abruption*

*Villous Hypervascular Lesions*

*Chorangiomas*

*Chorangiomas*

*Chorangioma*

*Gestational Trophoblastic Disease and Metastatic Tumors*

*Hydropic Degeneration Mole*

*Partial Hydatidiform Mole*

*Complete Hydatidiform Mole*

*Choriocarcinoma*

*Placental Site Nodule and Exaggerated Placental Site*

*Placental Site Trophoblastic Tumor and Epithelioid Trophoblastic Tumor*

*Metastatic Tumors*

*Placental Mesenchymal Dysplasia*

*Placental Mesenchymal Dysplasia*

*Placental Evaluation in Special Circumstances*

*Gestational Diabetes*

*Gestational Diabetes*

*Placentomegaly*

*Distal Villous Immaturity*

*Preeclampsia and Uteroplacental Malperfusion*

*Preeclampsia and Related Hypertensive Disorders*

*Small for Gestational Age Placenta*

*Distal Villous Hypoplasia*

*Maternal Decidual Vasculopathy*

*Infarcts*

*Extravillous Cytotrophoblast Cysts*

*Laminar Decidual Necrosis*

*Fetal-Maternal Hemorrhage*

*Fetal-Maternal Hemorrhage*

*Intrauterine Growth Restriction*

*Placental Causes of Poor Fetal Growth*

*Prematurity*

*Placental Findings in Premature Birth*

*Abnormal Placental Implantation*

*Placenta Accreta*

*Intrauterine Fetal Demise*

*1st-Trimester Pregnancy Loss*

*2nd-Trimester Fetal Demise*

*3rd-Trimester Fetal Demise*

*Recurrent Pregnancy Loss*

*In Utero Demise to Delivery Interval Changes*

*Hypoxic Ischemic Encephalopathy*

*Multiple Gestations*

*Complications of Monochorionic Monoamniotic Twin Gestations*

*Twin Growth Discrepancy*

*Twin-Twin Transfusion Syndrome*

*Twin Anemia-Polycythemia Sequence*

*After In Utero Intervention for Twin-Twin Transfusion Syndrome*

*Triplet and Higher Order Placenta*

*Maternal Complications of Pregnancy*

*Maternal Mortality*

*Evaluation of Postpartum Hysterectomy*

*Postpartum Hemorrhage*

*Appendix*

*Reference Charts for Placental Evaluation*

*Weights for Singleton Placentas*

*Weights for Twin Placentas*

*Weights for Triplet Placentas*

*Reference Values for Fetal and Placental Growth in Early Pregnancy*

*Sample Templates for Placental Evaluation*

*Singleton Placenta Gross Evaluation*

*Twin Placenta Gross Evaluation*

*Placenta Microscopic Evaluation*

*Placenta Triage*
