

*Foreword*

*1 Introduction and Historical Aspects*

*2 Physiologic Principles*

*3 Control of Ventilation*

*4 Ethical Issues in Assisted Ventilation*

*5 Evidence-Based Respiratory Care*

*6 Quality and Safety in Respiratory Care*

*7 Medical and Legal Aspects of Respiratory Care*

*8 Physical Examination*

*9 Imaging: Radiography, Lung Ultrasound, and Other Imaging Modalities*

*10 Blood Gases and Acid-Base Balance: Technical Aspects and Interpretation*

*11 Non-invasive Monitoring of Gas Exchange*

*12 Pulmonary Function and Graphics*

*13 Airway Evaluation: Bronchoscopy, Laryngoscopy, and Tracheal Aspirates*

*14 Delivery Room Stabilization and Respiratory Support*

*14 Cardiovascular Assessment*

*15 Surfactant Replacement Therapy*

*16 Oxygen Therapy*

*17 Respiratory Gas Conditioning*

*18 Non-invasive Respiratory Support*

*19 Overview of Assisted Ventilation*

*20 Basic Modes of Synchronized Ventilation*

*21 Principles of Lung-Protective Ventilation*

*22 Volume-Targeted Ventilation*

*23 Special Ventilation Techniques*

*24 High-Frequency Ventilation*

*25 Mechanical Ventilation: Disease-Specific Strategies*

*26 Weaning and Extubation from Mechanical Ventilation*

*27 Common Devices Used for Mechanical Ventilation*

*28 Extracorporeal Membrane Oxygenation*

*29 Respiratory Care of the Newborn*

*30 Nursing Care*

*31 Nutritional Support*

*32 Pharmacologic Therapies*

*33 Cardiovascular Assessment and Management*

*34 Pharmacologic Therapies: Inhaled Nitric Oxide*

*34 Pharmacologic Therapies III: Cardiovascular Therapy and Persistent Pulmonary Hypertension of the Newborn*

*34 Gaps in Knowledge and Future Directions*

*34 Diagnosis and Management of Persistent Pulmonary Hypertension*

*35 Pharmacologic Therapies IV: Other Medications*

*35 Care of the Infant with CDH*

*36 Management of the Infant with Bronchopulmonary Dysplasia*

*37 Medical and Surgical Interventions for Respiratory Distress and Airway Management*

*38 Intraoperative Management of the Neonate*

*39 Complications of Respiratory Support*

*40 Neonatal Respiratory Care in Resource-Limited Countries*

*41 Transport of the Ventilated Infant*

*41 Pharmacologic therapies II: Inhaled nitric oxide*

*42 Discharge and transition to home care*

*43 Neurologic Effects of Respiratory Support in the NICU*

*44 Long-term Pulmonary Outcomes of Respiratory Support*

*45 Gaps in Knowledge and Future Directions for Research*

*Appendix*
