

1. Introduction

Shyamala Dakshinamurti, William K. Milsom, Satyan Lakshminrusimha, Steven H.

Abman, Po-Yin Cheung, Patrick McNamara

Part 1: The Origins of Hypoxia Tolerance

edited by William K. Milsom

2. The Human Fetus and Metabolic Adaptations to Hypoxia

Dominique Singer

3. Hypoxia as a Neuroinflammatory Stimulus During Development

Peter M. MacFarlane, Allison S. Osborne

4. Human Adaptations to High Altitude

Tatum Simonson

5. Fetal Llama Adaptation to Altitude in the Andean Altiplano

Aníbal J. Llanos, German Ebensperger, Emilio A. Herrera, Roberto V. Reyes, María

Serón-Ferré

6. Neonates of Burrowing and Hibernating Mammals: Metabolic and Respiratory

Adaptations to Hypoxia

Yvonne A. Dzal, William K. Milsom

7. Diving Response and Hypoxia in Deep Sea Mammals

Allyson Hindle

8. The Phylogeny and Ontogeny of Cardiorespiratory Coupling in Vertebrates and its

Relevance to Non-Invasive Monitoring of the Human Fetus

Edwin W. Taylor, Harry Gee

Part 2: Fetal Hypoxia and Neonatal Transition

edited by Satyan Lakshminrusimha

9. Fetal and Neonatal Oxygen Environment

Payam Vali, Robin H. Steinhorn, Satyan Lakshminrusimha

10. Fetal Oxygenation During Maternal Hypoxic Illness

Fabiana Postolow, Shyamala Dakshinamurti

11. Hemodynamics of the Circulatory Transition

Graeme R. Polglase, Martin Kluckow, Andrew W. Gill, Stuart B. Hooper

12. Oxygen During Postnatal Stabilization

Maximo Vento, Ola D. Saugstad

Part 3: Biology of Hypoxic Respiratory Failure in the Neonate

edited by Steven H. Abman

13. Hypoxia and Pulmonary Artery Structure

Csaba Galambos, Steven H. Abman

14. Animal Models of PPHN and Vasoconstrictor Signaling in Hypoxia

Candice D. Fike, Judy L. Aschner

15. Hypoxia and Endothelial Dysfunction in the Lung

Emily Callan, Girija Ganesh Konduri

16. Effects of Hypoxia on Pulmonary Vascular Smooth Muscle Contraction and Relaxation

Shyamala Dakshinamurti, Anjali Y. Bhagirath, Robert P. Jankov

17. Cellular Oxygen Sensing, Mitochondrial Oxygen Sensing and Reactive Oxygen Species

Jason Boehme, Emin Maltepe

18. Reactive Oxygen Species Signaling in Animal Models of Pulmonary Hypertension

Stephen Wedgwood, Satyan Lakshminrusimha, Robin H. Steinhorn

19. Hypoxia, Myocardial Metabolic Adaptation and Right Ventricular Performance

Mark K. Friedberg

20. Hypoxic Remodeling of Neonatal Pulmonary Artery and Myocardium

Hui Zhang, R. Dale Brown, Jason Williams, Cassidy Delaney, Kurt R. Stenmark

21. Hypoxia-Induced Epigenetic Mechanisms of Pulmonary Hypertension

Kurt H. Albertine

Part 4: Hypoxia and Collateral Damage

edited by Po-Yin Cheung

22. The Effects of Hypoxia Ischemia on the Term Brain, and A Strategic Approach

Aravanan Anbu Chakkarapani, Nicola J. Robertson

23. Effects of Hypoxia on Cerebral Perfusion and the Blood-Brain Barrier

Divyen K. Shah, W. L. Amelia Lee, David F. Wertheim, Stephen T. Kempley

24. Effects of Hypoxia on Airway, Alveolar Function and Respiration

Y.S. Prakash, Christina M. Pabelick, Peter M. MacFarlane

25. Hypoxic Respiratory Failure and the Neonatal Kidney

Catherine Morgan, Po-Yin Cheung

26. The Effect of Hypoxia on Intestinal Function

Eric B. Ortigoza, Josef Neu

27. Effects of Hypoxia on Perinatal Drug Disposition

Karel Allegaert, Anne Smits, Pieter Annaert

28. Anesthetic Considerations for the Neonate with Hypoxic Respiratory Failure

M. Ruth Graham

Part 5: Diagnosis and Management of Neonatal Hypoxic Respiratory Failure

edited by Patrick J. McNamara

29. Epidemiology and Outcomes of Infants with Hypoxemic Respiratory Failure

Souvik Mitra, Roberta L. Keller, Prakesh S. Shah

30. Clinical Evaluation of Hypoxic Respiratory Failure

Yasser Elsayed, Shyamala Dakshinamurti

31. Diagnosis of Pulmonary Hypertension by Echocardiography

Danielle R. Rios, Patrick J. McNamara, Regan E. Giesinger

32. Right Ventricular Performance and Ventricular Interdependence in Hypoxia

Ajif El Khuffash, Philip T. Levy

33. Ventilation Strategies in Neonatal Hypoxemic Respiratory Failure

Bradley A. Yoder, Michelle J. Yang, Nicholas R. Carr, Martin Keszler

34. Pulmonary Hypertension Phenotypes in the Newborn

Regan E. Giesinger, John P. Kinsella, Steven H. Abman, Patrick J. McNamara

35. Special Consideration: HRF in Congenital Diaphragmatic Hernia

Gabriel Altit, Jason Gien, Nolan DeLeon, Richard Keijzer

36. Special Consideration: Hypoxemic Respiratory Failure Among Patients with

Hypoxic Ischemic Encephalopathy

Arvind Sehgal, Satyan Lakshminrusimha, Regan E. Giesinger

37. Special Consideration: HRF in the Preterm

Michelle Baczynski, Amish Jain, Dany E. Weisz

38. Hypoxemic Respiratory Failure – Neonatal Cases

Adrienne Rahde Bischoff, Faith Zhu, Amish Jain, Patrick J. McNamara
