

## **PART 1 SCIENTIFIC PRINCIPLES OF RESPIRATORY MEDICINE**

### **SECTION A Anatomy and Development of the Respiratory Tract**

1. *Anatomy*
2. *Lung Growth and Development*
3. *Alveolar Compartment*
4. *Airway Biology*
5. *Lung Mesenchyme*
6. *Vascular Biology*
7. *Lymphatic Biology*
8. *Regeneration and Repair*
9. *Genetics of Lung Disease*

### **SECTION B Respiratory Physiology**

10. *Ventilation, Blood Flow, and Gas Exchange*
11. *Respiratory System Mechanics and Energetics*
12. *Acid-Base Balance*
13. *Aerosol and Drug Delivery*
14. *Pleural Physiology and Pathophysiology*

### **SECTION C Defense Mechanisms and Immunology**

15. *Innate Immunity*
16. *Adaptive Immunity*
17. *Microbiome*

## **PART 2 DIAGNOSIS AND EVALUATION OF RESPIRATORY DISEASE**

### **SECTION D Diagnosis**

18. *History and Physical Examination*
19. *Microbiological Diagnosis of Lung Infection*
20. *Thoracic Radiology: Noninvasive Diagnostic Imaging*
21. *Thoracic Radiology: Invasive Diagnostic Imaging and Image-Guided Interventions*
22. *Pathology*
23. *Ultrasonography: Principles, and Basic Thoracic and Vascular Imaging*
24. *Ultrasonography: Advanced Applications and Procedures*
25. *Positron Emission Tomography*

- 26. *Diagnostic Bronchoscopy: Basic Techniques*
- 27. *Diagnostic Bronchoscopy: Advanced Techniques (EBUS and Navigational)*
- 28. *Therapeutic Bronchoscopy: Interventional Techniques*
- 29. *Thoracoscopy*
- 30. *Thoracic Surgery*

**SECTION E Evaluation**

- 31. *Pulmonary Function Testing: Physiologic and technical principles*
- 32. *Pulmonary Function Testing: Interpretation and Applications*
- 33. *Exercise Testing*
- 34. *Preoperative Evaluation*
- 35. *Evaluation of Respiratory Impairment and Disability*

**PART 3 CLINICAL RESPIRATORY MEDICINE**

**SECTION F Evaluation of Common Presentations of Respiratory Disease**

- 36. *Dyspnea*
- 37. *Cough*
- 38. *Chest Pain*
- 39. *Wheezing and Stridor*
- 40. *Hemoptysis*
- 41. *Pulmonary Nodule*
- 42. *Positive Screening Test for Tuberculosis*
- 43. *Aspiration*
- 44. *Hypoxemia*
- 45. *Hypercarbia*

**SECTION G Infectious Diseases of the Lungs**

- 46. *Community-Acquired Pneumonia*
- 46a. *COVID-19*
- 47. *Influenza*
- 48. *Hospital-Acquired Pneumonia*
- 49. *Ventilator-Associated Pneumonia*
- 50. *Lung Abscess*
- 51. *Tuberculosis: Epidemiology and Prevention*
- 52. *Tuberculosis: Pathogenesis and immunity*

- 53. *Tuberculosis: Clinical Manifestations and Diagnosis*
- 54. *Tuberculosis: Treatment of Drug-Susceptible and Drug-Resistant*
- 55. *Nontuberculous Mycobacterial Infections*
- 56. *Fungal Infections: Endemic*
- 57. *Fungal Infections: Opportunistic*
- 58. *Parasitic Infections*
- 59. *Outbreaks, Epidemics, and Bioterrorism*

#### **SECTION H Obstructive Diseases**

- 60. *Asthma: Pathogenesis and Phenotypes*
- 61. *Asthma and Obesity*
- 62. *Asthma: Diagnosis and Management*
- 63. *COPD: Pathogenesis and Natural History*
- 64. *COPD: Diagnosis and Management*
- 65. *Smoking Hazards: Cigarettes, Vaping, Marijuana*
- 66. *Smoking Cessation*
- 67. *Cystic Fibrosis: Pathogenesis and Epidemiology*
- 68. *Cystic Fibrosis: Diagnosis and Management*
- 69. *Bronchiectasis*
- 70. *Upper Airway Disorders*
- 71. *Large Airway Disorders*
- 72. *Bronchiolitis*

#### **SECTION I Neoplasms of the Lung**

- 73. *Lung Cancer: Molecular Biology and Targets*
- 74. *Lung Cancer: Epidemiology*
- 75. *Lung Cancer: Screening*
- 76. *Lung Cancer: Diagnosis and Staging*
- 77. *Lung Cancer: Treatment*
- 78. *Rare Primary Lung Tumors*
- 79. *Metastatic Malignant Tumors*
- 80. *Benign Lung Tumors*

#### **SECTION J Disorders of the Pulmonary Circulation**

- 81. *Pulmonary Thromboembolism: Presentation and Diagnosis*

- 82. *Pulmonary Thromboembolism: Prophylaxis and Treatment*
- 83. *Pulmonary Hypertension: General Approach*
- 84. *Pulmonary Arterial Hypertension: Group 1*
- 85. *Pulmonary Hypertension due to Lung Disease: Group 3*
- 86. *Pulmonary Hypertension due to Chronic Thromboembolic Disease: Group 4*
- 87. *Pulmonary Vasculitis*
- 88. *Pulmonary Vascular Anomalies*

**SECTION K Infiltrative and Interstitial Lung Diseases**

- 89. *Idiopathic Pulmonary Fibrosis*
- 90. *Nonspecific Interstitial Pneumonitis and Other Idiopathic Interstitial Pneumonias*
- 91. *Hypersensitivity Pneumonitis*
- 92. *Connective Tissue Diseases*
- 93. *Sarcoidosis*
- 94. *Diffuse Alveolar Hemorrhage*
- 95. *Pulmonary Langerhans Cell Histiocytosis and other Rare Diffuse Infiltrative Lung Diseases*
- 96. *Eosinophilic Lung Diseases*
- 97. *Lymphangiomyomatosis*
- 98. *Pulmonary Alveolar Proteinosis Syndromes*
- 99. *Drug-Induced Pulmonary Disease*

**SECTION L Environmental and Occupational Hazards**

- 100. *Asthma in the Workplace*
- 101. *Pneumoconioses*
- 102. *Indoor and Outdoor Air Pollution*
- 103. *Acute Responses to Toxic Exposures*
- 104. *Trauma and Blast Injuries*
- 105. *High Altitude*
- 106. *Air Travel*
- 107. *Diving Medicine*

**SECTION M Disorders of the Pleura**

- 108. *Pleural Effusions*
- 109. *Pleural Infections*
- 110. *Pneumothorax*
- 111. *Chylothorax*
- 112. *Pleural Fibrosis and Unexpandable Lung*
- 113. *Hemothorax*
- 114. *Pleural Malignancy*

**SECTION N Disorders of the Mediastinum**

- 115. *Mediastinal Tumors and Cysts*
- 116. *Mediastinitis and Fibrosing Mediastinitis*

**SECTION O Disorders of Sleep and Control of Breathing**

- 117. *Control of Breathing and Upper Airways During Sleep*
- 118. *Consequences of Sleep Disruption*
- 119. *Sleep-Disordered Breathing: General Approach*
- 120. *Obstructive Sleep Apnea*
- 121. *Central Sleep Apnea*
- 122. *Sleep-Disordered Breathing: Treatment*

**SECTION P Respiratory Manifestations of Extrapulmonary Disorders**

- 123. *Pulmonary Complications of HIV Infection*
- 124. *Pulmonary Complications of Primary Immunodeficiencies*
- 125. *Pulmonary Complications of Stem Cell and Solid Organ Transplantation*
- 126. *Pulmonary Complications of Abdominal Diseases*
- 127. *Pulmonary Complications of Hematologic Diseases*
- 128. *Pulmonary Complications of Endocrine Diseases*
- 129. *The Lungs in Obstetric and Gynecologic Diseases*
- 130. *The Respiratory System and Neuromuscular Diseases*
- 131. *The Respiratory System and Chest Wall Diseases*

**SECTION Q Management of Respiratory Failure**

- 132. *Acute Ventilatory Failure*
- 133. *Pulmonary Edema*
- 134. *Acute Respiratory Distress Syndrome*
- 135. *Mechanical Ventilation*

- 136. Noninvasive Support of Ventilation*
- 137. Noninvasive Support of Oxygenation*
- 138. Extracorporeal Support of Gas Exchange*
- 139. Pulmonary Rehabilitation*
- 140. Lung Transplantation*
- 141. End-of-Life Care in Respiratory Failure*

**Appendix**
