

Section 1: The subject matter and approach to psychiatry

1:The patient's perspective, Kay Redfield Jamison and Adam Ian Kaplin

2:Public attitudes and the challenge of stigma, Nicole Votruba, Mirja Koschorke, and Graham Thornicroft

3: Global mental health, Crick Lund, Dörte Bemme, and Judy Bass

4:The history of psychiatry as a medical specialty, Pierre Pichot

5:A new ethics for 21st century psychiatry, Ilina Singh, Julian Savulescu, and Matthew L. Baum

6:Foundations of phenomenology / descriptive psychopathology, Hans-Jürgen Möller

7: DSM-5 and ICD-11 classifications, Darrel A. Regier, David P. Goldberg, Geoffrey M. Reed and Bedirhan T. Ustun

8:The National Institute of Mental Health Research Domain Criteria: An alternative framework to guide psychopathology research, Charles A. Sanislow, Sarah E. Morris, Jennifer Pacheco, and Bruce N. Cuthbert

9:Application of research evidence in clinical practice, Andrea Cipriani, Stefan Leucht, and John R. Geddes

10:A neuroscience based nomenclature for psychotropic drugs, Guy M. Goodwin, Joseph Zohar, and David J. Kupfer

Section 2: The scientific basis of psychiatric aetiology and treatment

11:Neuroanatomy, Karl Zilles and Nicola Palomero-Gallagher

12:Neuroimaging technologies, Mark Woolrich, Mark Jenkinson, and Clare Mackay

13:The connectome, Olaf Sporns

14:Neurotransmitters and signalling, Trevor Sharp

15:Psychoneuroimmunology, Juan C. Leza, Javier R. Caso, and Borja García-Bueno

16:Functional genomics, Caleb Webber

17:Cognitive neuroscience: Principles and methods, Anna Christina Nobre

18:Ageing and the human brain, Verena Heise, Enikő Zsoldos, and Klaus P. Ebmeier

19:Development of brain stimulation, Helen S. Mayberg, Andrea Cowell, and Patricio Riva Posse

20:Adherence to treatment in psychiatry, Amy Chan and Rob Horne

Section 3: Intellectual disabilities

21:Core dimensions of intellectual disabilities, Anthony J. Holland

22:Epidemiology and course of intellectual disabilities, Sally-Ann Cooper

23:Aetiology of intellectual disability: General issues and prevention, Judith L.

Rapoport, Dale Zhou, and Kwangmi Ahn

24:Management and treatment of intellectual disability, José-Luis Ayuso-Mateos and

Cary S. Kogan

Section 4: Autism spectrum disorders

25:Core dimensions of autism spectrum disorders, Fred R. Volkmar and Scott L. J.

Jackson

26:Basic mechanisms and treatment targets for autism spectrum disorders, Emily J.

H. Jones

27:Epidemiology of autism, Charles R. Newton

28:Genetics of autism spectrum disorders, Abha R. Gupta, Thomas V. Fernandez, and

Ellen J. Hoffman

29:Imaging of autism spectrum disorders, Christine Eckera and Declan Murphy

30:Management and treatment of autism spectrum disorders, Emily Simonoff

Section 5: Attention deficit and hyperactivity disorder

31:Core dimensions of attention deficit hyperactivity disorder, Eric Taylor

32:Basic mechanisms and treatment planning / targets for attention deficit

hyperactivity disorder, Barbara Franke and Jan K. Buitelaar

33:Epidemiology of attention deficit hyperactivity disorder and the implications for its prevention, Guilherme V. Polanczyk

34:Genetics of attention deficit hyperactivity disorder, Kate Langley and Anita Thapar

35:Insights from neuroanatomical imaging into attention deficit hyperactivity

disorder throughout the lifespan, Philip Shaw and Eszter Szekely

36:Management and treatment of attention deficit hyperactivity disorder, Alessandro

Zuddas and Sara Carucci

Section 6: Motor disorders

37:Neurodevelopmental motor disorders, Davide Martino and Antonella Macerollo

Section 7: Delirium, dementia, and other cognitive disorders

38:Pathways of neurodegeneration underlying dementia, Noel J. Buckley and George

K. Tofaris

39:Delirium, Ravi S. Bhat and Kenneth Rockwood

- 40:*Alzheimer's disease*, Ivan Koychev and John Gallacher
- 41:*Frontotemporal dementias*, Akitoshi Takeda and Bruce Miller
- 42:*Prion disease*, Akin Nihat, TzeHow Mok, and John Collinge
- 43:*Dementia with Lewy bodies*, Anto P. Rajkumar and Dag Aarsland
- 44:*Dementia in Parkinson's disease*, Michele Hu and Fahd Baig
- 45:*Dementia due to Huntington's disease*, Russell L. Margolis
- 46:*Vascular cognitive impairment*, Joanne A. Byars and Ricardo E. Jorge
- 47:*Traumatic brain injury*, Christian Lepage, Inga K. Koerte, Vivian Schultz, Michael J. Coleman, and Martha E. Shenton

Section 8: Substance use disorders

- 48:*Substance use disorders and the mechanisms of drug addiction*, Trevor W. Robbins and Barry J. Everitt
- 49:*Genetics of substance use disorders*, Yann Le Strat, Nicolas Ramoz, and Philip Gorwood
- 50:*Alcohol use disorder*, Wim van den Brink and Falk Kiefer
- 51:*Opiates: Heroin, methadone, buprenorphine*, Michael Farrell, Briony Larance, and Courtney Breen
- 52:*Cannabis and mental illness*, David J. Castle
- 53:*Stimulants, ecstasy, and other party drugs*, Adam R. Winstock and Remy Flechais
- 54:*Psychedelics and dissociative substances*, Adam Winstock and James Rucker
- 55:*Tobacco addiction*, Marcus Munafo and Meryem Grabski
- 56:*Co-morbidity of substance use and psychiatric disorders*, Julia M. A. Sinclair and Anne Lingford-Hughes

Section 9: Schizophrenia and psychotic disorders

- 57:*The core dimensions of schizophrenia*, Nancy C. Andreasen
- 58:*Epidemiology and course of schizophrenia*, Assen Jablensky
- 59:*Genetics of schizophrenia*, Kimberley M. Kendall, James T. R. Walters and Michael C. O Donovan
- 60:*Structural and functional neuroimaging of schizophrenia*, Andreea O. Diaconescu, Sandra Iglesias, and Klaas E. Stephan
- 61:*Schizoaffective and schizotypal disorders / acute and transient psychotic disorders*, William S. Stone, Stephen V. Faraone and Ming T. Tsuang

62:*Delusional disorders*, Andreas Marneros

63:*Prevention and early intervention in psychotic disorders*, Emre Bora, Mahesh Jayaram, and Christos Pantelis

64:*Antipsychotic and anticholinergic drugs*, Herbert Y. Meltzer and William V. Bobo

65:*The treatment and management of patients with schizophrenia*, Joseph P. McEvoy, Kammarauche Asuzu, Daniel W. Bradford, Oliver Freudenreich, and Katherine Moyer

Section 10: Mood disorders

66:*Diagnosis, classification and differential diagnosis of mood disorders*, S. Nassir Ghaemi and Sivan Mauer

67:*Epidemiology of mood disorders*, Lars Vedel Kessing

68:*Primary prevention of mood disorders: Building a target for prevention strategies*, Gin S. Malhi

Section 11: Bipolar disorder

69:*Basic mechanisms of and treatment targets for bipolar disorder*, Grant C. Churchill, Nisha Singh, and Michael J. Berridge

70:*Genetics of bipolar disorder*, Francis J. MacMahon and Sevilla Detera-Wadliegh

71:*Neuroimaging of bipolar disorder*, Mary L. Phillips and Wayne C. Drevets

72:*Management and treatment of bipolar disorder*, Eduard Vieta, Isabella Pacchiarotti, and David J. Miklowitz

73:*Perinatal psychiatry*, Ian Jones and Arianna Di Florio

Section 12: Depressive disorders

74:*Basic mechanisms of and treatment targets for depressive disorders*, Marcela Pereira, Roberto Andreatini, and Per Svenningsson

75:*Genetic epidemiology of depression in the molecular era*, Alison K. Merikangas and Kathleen R. Merikangas

76:*Imaging of depressive disorders*, Guy M. Goodwin and Michael Browning

77:*Management and treatment of depressive disorders*, Philip J. Cowen

Section 13: Trauma and stress or related and adjustment disorders

78:*Classification and descriptive psychopathology of posttraumatic stress disorder and other stressor-related disorders*, Dean G. Kilpatrick, Matthew J. Friedman, and Amanda K. Gilmore

79:*Basic mechanisms of and treatment targets for stress-related disorders*, Bruce S.

McEwen

80:Genetics of stress-related disorders, Michael G. Gottschalk and Katharina

Domschke

81:Imaging of stress-related disorders, Navneet Kaur, Cecilia Hinojosa, Julia Russell,

Michael B. Van Elzaker, and Lisa M. Shin

82:Primary prevention and epidemiology of trauma and stress related

disorders, Maria Bragesjö, Emily A. Holmes, Filip Arnberg, and Erik M. Andersson

83:Management and treatment of stress-related disorders, Leigh van den Heuvel and

Soraya Seedat

84:Bereavement, Beverley Raphael, Sally Wooding, and Julie Dunsmore

85:Recovered memories and false memories, Deborah Davis and Elizabeth F. Loftus

Section 14: Anxiety disorders

86:Core dimensions of anxiety disorders, Nastassja Koen and Dan J. Stein

87:Basic mechanisms, genetics, targets and animal models for anxiety

disorders, Martien Kas and Berend Olivier

88:Epidemiology and course of anxiety disorders, Hans-Ulrich Wittchen and Katja

Beesdo-Baum

89:Genetics of anxiety disorders, Michael G. Gottschalk and Katharina Domschke

90:Neuroimaging of anxiety disorders, Gregor Leicht and Christoph Mulert

91:The primary prevention of anxiety disorders, Aliza Werner-Seidler, Jennifer L.

Hudson, and Helen Christensen

92:Treatment of anxiety disorders, David S. Baldwin and Nathan T. M. Huneke

Section 15: Obsessive-compulsive and related disorders

93:Core dimensions of obsessive-compulsive disorder, Sophie C. Snyder, Eric A. Storch,
and Wayne K. Goodman

*94:Basic mechanisms of and treatment / planning targets for obsessive-compulsive
disorder*, Eric Burguière and Luc Mallet

95:Obsessive-compulsive disorder, Lior Carmi, Naomi A. Fineberg, Oded Ben-Arush,
and Joseph Zohar

96:Genetics of obsessive-compulsive disorder, Gerald Nestadt and Jack Samuels

97:Imaging of obsessive-compulsive disorder, Rebbia Shahab and Emily R. Stern

98:Management and treatment of obsessive-compulsive disorder, Naomi A. Fineberg,

Lynne M. Drummond, Jemma Reid, Eduardo Cinosi, Lior Carmi, and Davis N.

Mpavaenda

99:Hoarding disorder, Lorena Fernández de la Cruz and David Mataix-Cols

100:Body dysmorphic disorder, Megan M. Kelly and Katharine A. Phillips

Section 16: Feeding and eating disorders

101:The eating disorders, Chris Fairburn and Rebecca Murphy

102:Basic mechanisms and potential for treatment of weight and eating disorders, Johannes Hebebrand, Jochen Antel, and Beate Herpertz-Dahlmann

103:Epidemiology and primary prevention of feeding and eating disorders, Katherine A Halmi

104:Genetics of feeding and eating disorders, Christopher Hüble, Cynthia Bulik, and Gerome Breen

105:Imaging of feeding and eating disorders, Natalie Kurniadi, Christina E. Wierenga, Laura A. Berner, and Walter H. Kaye

106:Management and treatment of feeding and eating disorders, Susan L. McElroy, Anna I. Guerdjikova, Nicole Mori, Paul L. Houser, and Paul E. Keck, Jr.

107:Aetiology and management of obesity, Jamie Hartmann-Boyce, Nerys M. Astbury, and Susan A. Jebb

108:Elimination disorders in children and adolescents, Alexander von Gontard

Section 17: Sleep wake disorders

109:Basic mechanisms of and treatment targets for sleep-wake disorders, David Pritchett, Angus S. Fisk, Russell G. Foster, and Stuart N. Peirson

110:Diagnosis of sleep and circadian rhythm disorder, Kirstie Anderson

111:Epidemiology of sleep-wake and primary prevention of its disorders, Lena Katharina Keller, Eva C. Winnebeck, and Till Roenneberg

112:Genetics of sleep-wake disorders, Diego R. Mazzotti, Allan I. Pack, and Philip R. Gehrman

113:Multi-modal imaging of sleep-wake disorders, Umberto Moretto, Dylan Smith, Liliana Dell Osso, and Thien Thanh Dang-Vu

114:Management of insomnia and circadian rhythm sleep-wake disorders, Simon D. Kyle, Alasdair L. Henry, and Colin A. Espie

Section 18: Sexual function and sexual dysfunction

115: The sexual dysfunctions and paraphilias, Cynthia A. Graham and John Bancroft

116: Gender dysphoria, Els Elaut and Gunter Heylens

Section 19: Personality disorders

117: Core dimensions of personality pathology, Andrew E. Skodol and Leslie C. Morey

118: Basic mechanisms of and treatment planning / targets for personality disorders, Kate E. A. Saunders and Steve Pearce

119: Personality disorders: Epidemiology and clinical course, Renato D. Alarcón and Brian A. Palmer

120: Genetics of personality disorders, C. Robert Cloninger

121: Imaging of personality disorders, Christian Paret and Christian Schmahl

122: Treatment and management of personality disorder, Giles Newton-Howes and Roger Mulder

Section 20: Impulse control and conduct disorders

123: Impulse control and its disorders: including pathological gambling, Donald W. Black

124: Conduct disorders and antisocial personality disorder in childhood and adolescence, Stephen Scott and Melanie Palmer

Section 21: Suicide

125: Epidemiology and causes of suicide, Merete Nordentoft, Trine Madsen, and Annette Erlangsen

126: Self-harm: Epidemiology and risk factors, Nav Kapur, Sarah Steeg, and Adam Moreton

127: Biological aspects of suicidal behaviour, J. John Mann and Dianne Currier

128: Prevention of suicide and treatment following self-harm, Keith Hawton, Kate E. A. Saunders, and Alexandra Pitman

Section 22: Somatic symptoms and related disorders

129: Deconstructing dualism: The interface between physical and psychological illness, Michael Sharpe and Jane Walker

130: Neural mechanisms in chronic pain relevant for psychiatric interventions, Chantal Berna and Irene Tracey

131: Treatment of fibromyalgia (chronic widespread pain) and chronic fatigue syndrome, Jonathan Price

132:Factitious disorder and malingering, Thomas Merten and Harald Merckelbach

133:Functional neurological symptom disorder (Conversion disorder), Jon Stone and Michael Sharpe

Section 23: Service provision

134:Public policy and service needs in mental health, Martin Knapp

135:Planning and providing mental health services for a community, Tom Burns and Tony Kendrick

136:Health economic analysis of service provision, Judit Simon

137:The organization of psychiatric services for general hospital departments: Proactive and preventive interventions in psychiatry, William H. Sledge and Julianne Dorset

138:Refugees and populations exposed to mass conflict, Mina Fazel, Susan Rees, and Derrick Silove

Section 24: Forensic psychiatry

139:Associations between psychiatric disorder and offending, Seena Fazel and Mark Toynbee

140:Developmental approach to understanding the needs of young people in contact with the criminal justice system, Sue Bailey and Prathiba Chitsabesan

141:Child molesters and other sexual offenders, Stephen J. Hucker

142:Stalking and querulous behaviour, Rosemary Purcell and Paul E. Mullen

143:Domestic violence and abuse and mental health, Louise M. Howard and Deirdre MacManus

144:Assessing and managing the risk of violence towards others, Alec Buchanan

145:The expert witness in the criminal and civil courts, John O Grady

146:Homicide, Matthew Large and Olav Nielssen
