

Section 1: Principles of Neurological Surgery

1:*The History of Neurosurgery*, Henry Marsh and Eleni Marts

2:*Clinical Assessment*, Peter Bodkin and Elizabeth Visser

3:*Overview of Neuroimaging*, Tomasz Matys, Daniel. J. Scoffings, and Tilak Das

4:*Operating Theatre Environment*, Neil Kitchen and Jonathan Shapey

5:*Perioperative Care of the Neurosurgical Patient*, Derek Duane, Alessandro Scudellari, Karol P Budohoski, and Sylvia Karcheva

Section 2: Tumours and Skull Base - Intrinsic Tumour

6:*Low Grade Glioma*, Hugues Duffau, Lorenzo Bello, and Thomas Santarius

7:*High Grade Gliomas and Molecular Biology of Neurosurgical Oncology*, Stephen Price, Harry Bulstrode, and Richard Mair

8:*Intracranial Metastasis*, Andrew Brodbelt and Rashed Zakaria

9:*Primary Central Nervous System Lymphoma*, Boon Leong and Thangaraj Munusamy

10:*Glioneuronal and other epilepsy-associated tumours*, Matthias Simon and Alexander Grote

11:*Radiotherapy and Radiosurgery for Brain Tumours*, Susan Short

12:*Chemotherapy for Brain Tumours*, Nicholas Brown, Daniel Krell, and Paul Mulholland

13:*Surgical Techniques in the Management of Intrinsic Tumours*, Mitchel Berger and Shawn Hervey-Jumper

Section 3: Tumours and Skull Base - Extra-axial and Skull Lesions

14:*Meningiomas & Haemangiopericytoma*, Michael McDermott, Thomas Santarius, Harjus Birk, Seunggu J. Han, and Ramez Kirillos

15:*Chordomas and Chondrosarcomas of the skull base*, Ossama Al-Mefty and Rami O. Almefty

16:*Dermoid and Epidermoid Cysts*, Andrew McEvoy

17:*Esthesioneuroblastoma*, Fred Gentili, Lior Gonen, and Georgios Klironomos

18:*Malignant Skull Base Tumours*, Benedict Panizza and Adel Helmy

19:*Surgical Management of Tumours of the Orbit*, Paul Gardner, Joseph D. Chabot, and S. Tonya Stefko

20:*Skull Lesions*, Ivan Tmofeev and Giorgio Gioffre

21:*Surgical Management of Anterolateral Skull Base Lesions*, Michael Cusimano and

Michael P. Meier

Section 4: Tumours and Skull Base - CP Angle

22:*Schwannomas*, Tiit Mathiesen and Petter Förander

23:*Glomus Tumours*, Andrew King and Omar Pathmanaban

24:*Surgical management of cerebellopontine angle and petrous lesions*, Andrew Kaye, Nicholas Hall, and Yuval Sufaro

Section 5: Tumours and Skull Base - Sellar and Supra Sellar Tumours

25:*Pituitary Tumours*, Kanna Gnanalingham, Zsolt Zador, Tara Kearney, Federico Roncaroli, and H Rao Gattamaneni

26:*Craniopharyngioma and Rathke's Cleft cysts*, Rudolf Fahlbusch, V. Gerganov, and H. Metwali

27:*Surgical Management of Sellar and Suprasellar Tumours*, William Couldwell and Jayson A. Neil

Section 6: Tumours and Skull Base - Posterior Fossa

28:*Medulloblastoma*, James Rutka

29:*Ependymoma*, Christopher Chandler

30:*Haemangioblastoma*, Donald McArthur and Ammar Natalwala

31:*Surgical Approaches to Posterior Fossa Tumours*, Jacques Morcos, Osaama Khan, and Ashish Shah

Section 7: Tumours and Skull Base - Intraventricular

32:*Intraventricular Tumours*, Paul Grundy and Vasileios Apostolopoulos

33:*Colloid Cyst*, Paul Chumas and Asim Sheikh

34:*Choroid Plexus tumours*, Shlomi Constantini, Jonathan Roth, and Rina Dvir

35:*Surgical Management of Intraventricular Lesions*, Guilherme Ribas, Eduardo Ribas, and Ramez W Kirollos

Section 8: Tumours and Skull Base - Pineal

36:*Pineal Tumours*, Michael Jenkinson, Mueez Waqar, Samantha Mills, and Conor L Mallucci

37:*Surgical management of pineal region lesions*, Nicolas de Tribolet, Christoph M Woernle, and René Bernays

Section 9: Tumours and Skull Base - Tumour Syndromes

38:*Neurophakomatoses*, Timothy Jones, Fay Greenway, and Frances Elmslie

39:*Uncommon Brain Lesions*, Thomas Santarius, Hani Marcus, and Yizhou Wan

Section 10: Neurotrauma and Intensive Care

40:*Epidemiology of head injury and outcome after head injury*, Nabeel Alshafai and Andrew Maas

41:*Pathophysiology of Traumatic Brain Injury*, Geoffrey Manley, John K. Yue, Hansen Deng, Ethan A. Winkler, John F. Burke, and Catherine Suen

42:*Intensive Care Management of Head Injury*, Martin Smith and Matthew A. Kirkman

43:*Surgical Management of Head Injury*, Randall Chesnut, Hadie Adams, Angelos Kolias, Peter Hutchinson, and Adel Helmy

44:*Complications of head injury*, Antonio Belli, Fardad T. Afshari, and Peter C Whitfield

45:*Concussion and Sports Related Head Injury*, Mark Wilson

Section 11: Vascular Neurosurgery

46:*Normal Cerebrovascular Physiology and Vascular Anatomy*, Diederik O. Bulters and Andrew Durnford

47:*The Pathophysiology of Aneurysms*, Neal Kassell, Giuseppe Lanzino, and Federico Cagnazzo

48:*The Pathophysiology of Subarachnoid Haemorrhage*, Jason McMillen

49:*Management of Subarachnoid Haemorrhage*, Michael Lawton and Roberto Rodriguez

50:*Arteriovenous Malformation and Dural Arteriovenous Fistulae*, Michael Morgan

51:*Carotid Artery Disease and Cerebral Ischaemia*, Mohsen Javadpour, Kieron Sweeney, and A. O'Hare

52:*Extracranial-Intracranial Bypass for Cerebral Ischaemia*, Peter Kirkpatrick and Mathew Guilfoyle

53:*Giant Aneurysms and Bypass Surgery*, Mario Teo, Michael Lawton, and Omar Choudhri

54:*Spontaneous Intracranial Haematoma*, Andreas W. Unterberg and Berk Orakcioglu

55:*Cavernoma and angiographically occult lesions*, Hiren Patel and Janneke van Beijnum

Section 12: Spinal Surgery - Principles

56:*Surgical Principles in spinal surgery*, Simon Thomson, Chris Derham, and Senthil Selvanathan

57:*Spinal stability*, Peter Loughenbury and Richard M Hall

58:*Spinal physiology*, Sadaquate Khan, Kevin Tsang, and Lamia Nayeb

59:*Medical pathologies of the spinal cord*, Chris McGuigan, Karen O'Connell, Eavan McGovern, and Iain McGurgan

Section 13: Spinal Surgery

60:*Cervical Spinal Disease*, Navin Furtado, Georgios Tsermoulas, and Adikarige Haritha Dulanka Silva

61:*Thoracic Spinal Disease*, Ciaran Bolger, Kieron Sweeney, and Catherine Moran

62:*Lumbar Spinal Disease*, Matt Crocker and Chris Kellett

63:*Spinal Tumours*, John Brecknell and Quah Boon Leong

64:*Vascular Lesions of the Spinal Cord*, Daniel Walsh

65:*Spinal cerebrospinal fluid dynamics*, Graham Flint

66:*Scoliosis and Spinal Deformity*, Peter Milner and Nigel Gummerson

Section 14: Spinal Trauma

67:*Managing Spinal Cord Trauma*, Edward Benzel, Bryan Lee, and Saksith Smithason

68:*Cervical Spine Injuries*, Calan Mathieson, Chris Barrett, and Likhith Alakandy

69:*Thoracic and Lumbar Spine Injuries*, Bedansh Roy Chaudhary

70:*Spinal Cord Injury Rehabilitation*, Fahim Anwar, Wail Ahmed, Tamara Tajsic, Damiano G. Barone, and Harry Mee

Section 15: Peripheral Nerve Surgery

71:*Electrodiagnostics*, Alan Forster and Robert Morris

72:*Entrapment Syndromes*, Grainne Bourke

73:*Supraclavicular Brachial Plexus and Peripheral Nerve Injuries*, Jonathan Perera and Marco Sinisi

74:*Peripheral Nerve Tumours*, Racin Trivedi and Vincent Nga

Section 16: Functional Neurosurgery

75:*Principles of Deep Brain Stimulation*, Alex Green, Tipu Aziz, and Erlick Pereira

76:*Movement Disorders*, Keyoumars Ashkan and Ismail Ughratdar

77:*Spasticity*, John Goodden, Catherine Hennon, and Brian Scott

78:*Pain pathophysiology and surgical management*, Richard Mannion and Rokas

Tamosauskas

79:Cranial Nerve Vascular Compression Syndromes, Marc Sindou and George Georgoulis

80:Neurosurgical interventions for psychiatric disorders, Bart Nuttin, Loes Gabriels, and Chris Bervoets

Section 17: Epilepsy

81:Diagnosis and Assessment, Richard Selway

82:Classification of Seizures and Epilepsy, Andrew McEvoy, Tim Wehner, and Victoria Wykes

83:Surgical Management of Epilepsy, Johannes Schramm

Section 18: Paediatrics

84:Developmental Disorders of the brain, Colin Ferrie and Daniel Warren

85:Spinal development and spinal dysraphism, Dominic Thompson

86:Craniofaciosynostosis : syndromic and non-syndromic craniofacial anomalies, Federico Di Rocco, Pierre-Aurelien Beuriat, and Eric Arnaud

87:Special Considerations in Paediatric Head and Spinal Trauma, Andrew Kay, Desiderio Rodrigues, Melanie Sharp, and Guirish Solanki

88:Paediatric Brain Tumours, Shlomi Constantini and Jonathan Roth

89:Paediatric Hydrocephalus, Conor Malucci, Matt Bailey, and Chris Parks

90:Paediatric neurovascular disorders, Atul Tyagi, Helen McCullagh, Tony Goddard, and Tufail Patankar

91:Paediatric Epilepsy, Martin Tisdall and Sophia Varadkar

Section 19: CSF Disorders

92:Hydrocephalus and Normal CSF Dynamics, Harold Rekate and Alexander Gamble

93:Shunt Technology and Endoscopic Ventricular Surgery, Ian K. Pople and William Singleton

94:Normal Pressure Hydrocephalus, Nicole Keong

95:Pseudotumour cerebri Syndrome, John D. Pickard and Nicholas Higgins

96:Arachnoid Cysts, Stana Bojanic and Ruichong Ma

Section 20: Infection

97:Microbiology, Walter Hall

98:Cranial infections, Eugene Yang, Thangaraj Munusamy, and Boon Hoe Tan

99:Spinal infection, Nicholas Haden and Edward White
