

Section I Benign Cutaneous Melanocytic Proliferations

1. *Melanotic Macules*
2. *Acquired Melanocytic Nevi*
3. *Congenital Melanocytic Nevi*
4. *Spitz Nevi*
5. *Blue Nevi and Dermal Melanocytosis*
6. *Deep Penetrating Nevi*
7. *Nevi of Special Cutaneous Sites*
8. *Traumatized and Recurrent Melanocytic Nevi, and Nevi Changing under Treatment*
9. *Combined Melanocytic Nevi*
10. *Pigmented Epithelioid Melanocytoma*

Section II Primary Cutaneous Melanoma

11. *Histopathologic Diagnosis of Melanoma*
12. *Lentigo Maligna Melanoma*
13. *Superficial Spreading Melanoma*
14. *Acral and Subungual Melanoma*
15. *Nodular Melanoma*
16. *Desmoplastic Melanoma*
17. *Nevoid Melanoma*
18. *Spitzoid Melanoma*
19. *Melanoma Arising in Association with or Simulating a Blue Nevus*
20. *Uncommon Variants of Melanoma*
21. *Pediatric Melanoma*

Section III Primary Extracutaneous Melanocytic Proliferations

22. *Conjunctival Melanocytic Proliferations*

23. *Melanocytic Proliferations of the Uveal Tract*

24. *Mucosal Melanocytic Tumors*

25. *Primary Melanocytic Neoplasms of the Central Nervous System and Melanotic Schwannoma*

26. *Melanocytic nevi in Lymph Nodes*

Section IV Metastatic Melanoma

27. *Metastatic Melanoma*

Section V Ancillary Studies

28. *Dermoscopy for Dermatopathologists*

29. *Immunohistochemistry for the Diagnosis of Melanocytic Proliferations*

30. *Molecular Techniques*

31. *Clinical, Dermoscopic, Pathologic and Molecular Correlations*

Section VI Prognosis, Staging, and Reporting of Melanoma

32. *Prognosis, Staging, and Reporting of Melanoma*

Section VII Margin Assessment of Melanomas

33. *Margin Assessment of Cutaneous Melanoma*
