- 16. Genetics and Genomic Basis of Sleep in Healthy Humans
- 17. Genetics and Genomic Basis of Sleep Disorders in Humans

4 Physiology in Sleep

18. Introduction to Physiology in Sleep

19. What Neuroimaging Reveals about the Brain Areas Generating, Maintaining, and Regulating Sleep

20. Cardiovascular Physiology and Coupling with Respiration: Central and Autonomic Regulation

- 21. Cardiovascular Physiology: Autonomic Control in Health and in Sleep Disorders
- 22. Respiratory Physiology. Central Neural Control of Respiratory Neurons and Motoneurons during Sleep
- 23. Respiratory Physiology Understanding the Control of Ventilation
- 24. Physiology of Upper and lower Airways
- 25. 5 Respiratory Physiology Sleep at High Altitude

- 26. Sleep and Host Defense
- 27. Endocrine Physiology in Relation to Sleep and Sleep Disturbances
- 28. Thermoregulation in Sleep and Hibernation
- 29. Memory Processing in Relation to Sleep
- 30. Sensory and Motor Processing during Sleep and Wakefulness
- 31. Local and Use-Dependent Aspects of Sleep
- 32. Pathophysiology of Sleep-Wake Disturbances after Traumatic Brain Injury

5 Chronobiology

- 33. Introduction
- 34. Master Circadian Clock and Master Circadian Rhythm
- 35. Anatomy of the Mammalian Circadian Sys tern
- 36. Physiology of the Mammalian Circadian System
- 37. Human Circadian Timing System and Sleep-Wake Regulation
- 38. Sleep Homeostasis and Models of Sleep Regulation
- 39. Circadian Rhythms in Sleepiness, Alertness, and Performance
- 40. Central and Peripheral Circadian Clocks
- 41. Circadian Dysregulation and Cardiometabolic and Immune Health
- 42. Circadian Dysregulation in Brain Aging and Neuropsychiatrie Health
- 43. Circadian Disorders of the Sleep-Wake Cycle
- 6 Pharmacology
- 44. Introduction
- 45. Adenosinergic Control of Sleep
- 46. Catecholamines
- 47. GABA: Its Metabolism, Receptors, and the Drugs for Treating Insomnias and
- Hypersomnias
- 48. Histamine
- 49. Orexin/Hypocretin
- 50. Serotonin and Sleep
- 51. Melatonin
- 52. Opioid Actions on Sleep and Breathing
- 53. Clinical Pharmacology of Drugs that Affect Sleep and Wake

- 7 Psychobiology and Dreaming
- 54. Introduction
- 55. Why We Dream
- 56. Dream Content: Quantitative Findings
- 57. Neural Correlates of Dreaming
- 58. The Neurobiology of Dreaming
- 59. Lucid Dreaming
- 60. What Is the Function of Nightmares?
- 61. Dreams and Nightmares in Posttraumatic Stress Disorder
- 62. Incorporation of Waking Experiences into Dreams
- 63. Emotion, Motivation, and Reward in Relation to Dreaming
- 64. Dreaming during Pregnancy
- 8 Impact, Presentation, and Diagnosis
- 65. Approach to the Patient with Disordered Sleep
- 66. Cardinal Manifestations of Sleep Disorders
- 67. Physical Examination in Sleep Medicine
- 68. Clinical Tools and Tests in Sleep Medicine
- 69. Classification of Sleep Disorders
- 70. Epidemiology of Sleep Medicine
- 71. Sleep Medicine, Public Policy, and Public Health
- 9 Legal Aspects of Sleep Medicine
- 72. Introduction
- 73. Sleep Forensics: Criminal Culpability for Sleep-Related Violence
- 74. Legal Obligations of Persons Who Have Sleep Disorders or Who Treat or Hire

Them

- 75. Legal Aspects of Fatigue- and Safety-Sensitive Professions
- 76. Sleep Medicine Clinical Practice and Compliance United States
- 77. Sleep Medicine Clinical Practice and Compliance—Europe
- 10 Occupational Sleep Medicine
- 78. Introduction
- 79. Performance Deficits During Sleep Loss and Their Operational Consequences
- 80. Sleep and Sleep Disorders in Operational Settings

- 81. Shift Work, Shift-Work Disorder, Jet Lag. and Jet Lag Disorder
- 82. Fatigue Countermeasures
- 83. Sleep, Sleepiness, and Performance Prediction Modeling
- 84. Fatigue RiskManagemen f Systems
- 85. Safety Cases and Assessing Alternative Means of Regulatory Compliance in
- Fatigue RiskManagemenf
- 86. Fatigue Proofing
- 87. Sleep Health in Athlete Populations: Unique Challenges and Practical Solutions
- 88. Assessment of the Occupational Sleep Medicine Field
- 11 Insomnia
- 89. Advances in Insomnia Pathophysiology and Treatment: An Introduction
- 90. Insomnia: Epidemiology, Risk Factors, and Health Disparities
- 91. Etiology and Pathophysiology of Insomnia
- 92. Pediatric Insomnia and Its Developmental Trajectories
- 93. Insomnia Diagnosis, Assessment, and Evaluation
- 94. Insomnia with Short Sleep Duration and Multidimensional Sleep Health
- 95. Behavioral Treatment I: Therapeutic Approaches and Implementation
- 96. Behavioral Treatment II: Efficacy, Effectiveness, and Dissemination
- 97. Behavioral Treatment III: Digital and Telehealth Approaches
- 98. Pharmacologic Treatment I: Therapeutic Approaches and Implementation
- 99. Pharmacologic Treatment II: Efficacy, Effectiveness, and Contraindications
- 100. Pharmacologic Treatment III: Sequenced and Combined Psychologic and
- Pharmacologic Treatments for Insomnia
- 12 Neurologic Disorders
- 101. Introduction
- 102. Parkinsonism
- 103. Sleep-Wake Disturbances and Stroke
- 104. Sleep and Neuromuscular Diseases
- 105. Alzheimer Disease and Other Demen tias
- 106. Epilepsy, Sleep, and Sleep Disorders
- 107. Sleep and Headache

- 108. Sleep Disorders after Traumatic Brain Injury
- 109. Autoimmune Disorders (Autoimmune Encephalitides and Multiple Sclerosis)
- 13 Hypersomnias
- 110. Central Disorders of Hypersomnolence
